COUNSEL IN BRADY CASE FIGHT

LEGISLATURE TAKES UP PRISON BILLS

PREDICTS FAVORABLE YEAR FOR AGRICULTURE

FIVE MEASURES ON PRISON SYSTEM IN HOUSE FOR ACTION

SENATE HAS TAKEN SHORT CUT TO CONSIDERATION OF PROPOSITIONS

AUSTIN, Jan. 27.—(AP)—The legislature lost little time in getting down to consideration of prison concentration legislation today, after its return from an inspection trip of the properties.

The senate resolved itself into a committee of the whole to receive and consider all bills before it providing reorganization and centralization of the system.

Among the plans were those proposing construction of a modern central plant within twenty miles of Austin, rehabilitation of the walls at Huntsville and concentration of any lands now owned. The senate committee on penitentiary had voted out all bills favorably in order to place them before the entire body for discussion.

The house committee on penitentiaries had not considered any of the five bills referred to it, but Representative A. H. King of Throckmorton, chairman, said a meeting would likely be held soon.

Five Propositions

In addition to three plans before the senate, the house had two others, providing for concentration on

GLIDER COLLAPSE HIGH IN AIR FATAL TO FLIER SUNDAY

OAKLAND, Cal., Jan. 27.—(AP)—Lieutenant Norman A. Goddard, former navy flier and recently operator of a Palo Alto aviation school, was dead today as the result of the collapse of a glider in which he attempted to execute a loop over the Alameda airport.

The frail craft collapsed yesterday as Goddard pulled it out of a dive at an altitude of 3,000 feet. Entangled in the wings, the pilot struggled to use his parachute, but a matter of seconds cost him his life.

While horrified spectators watched, Goddard worked loose and jumped from the cockpit a a heigh of 150 feet. His parachute opened a few seconds too late to check his fall, and Goddard plunged into Oakland estuary. He still was alive when reached in a launch, but was pronounced dead from a broken neck on arrival at a hospital.

Goddard was an entrant in the Dole flight from here to Honolulu in 1927.

CONFERENCE CANCELLED

LONDON, Jan. 27.—(AP)—A conference at St. James Palace between the British and French scheduled for late this afternoon was cancelled when Prime Minister MacDonald decided to attend the debate in the House of Commons on ratification of the optional clause of the world court recently signed by Great Britain.

Eielson Plane Found Completely Wrecked; Bodies Are Missing

SEATTLE, Jan. 27.—(AP)—Half the mystery of the disappearance Nov. 9 of Carl Ben Eielson and Earl Borland was solved today with discovery of their wrecked plane in an icy lagoon 90 miles southeast of North Cape, Siberia, but absence of the bodies of the two American aviators from the wreckage kept alive a rare hope that they might be alive.

The note of optimism was faint, however, as experienced fliers said they believed the plane struck with such force as to kill the aviators and throw them from the ship. It was pointed out that snow might have concealed the bodies from pilots Joe Crosson and Harold Gillam, who found the wreck Saturday.

Crosson and Gillam took off again yesterday from the fur trading ship Nanuk, icebound at North Cape, for the scene of the wreck. Eielson and Borland were attempting a flight from Alaska to the Nanuk when they crashed. They had removed one load of passengers and furs and were returning for a second.

Dog Team to Aid.

With Crosson and Gillam were a representative of the Russian Trading company and a sailor from the Nanuk, owned by the Swenson Trading company. Dog teams preceded the plane and will join in a search for the missing fliers.

Crosson, first to sight the Eielson plane, signalled to Gillam, and the two fliers brought their machines down near the wreck.

The condition of the plane, Crosson said, indicated that both its occupants were killed in the landing, but he and Gillam were unable in the short time available to find any trace of the bodies.

One wing of the Eielson-Borland plane was crumpled in landing, while the motor was found 100 feet from the fuselage. The tail was broken.

Little Hope Left.

Only the parents of Borland, among relatives of the two airmen, appeared to retain hope they might have escaped alive. Absence of skiis from the plane and the fact that the two were reported to have been equipped

(Continued on Page 9)

Charged Nurse Died As Result Severe Beating

HOUSTON, Jan. 27.—(AP)—Marie F. McGowen, 36, a nurse, died today following an altercation in a roadhouse on the Crosby road.

Justice Campbell Overstreet declared after a preliminary investigation of the case that an autopsy would be held.

"The woman evidently died from the effects of a severe beating," Judge Overstreet said. "She also had been drinking, and an autopsy will be necessary to establish the cause of her death."

Two witnesses to a fight between the deceased and another woman made statements to Judge Overstreet.

No arrest has been made.

Widow of "Great Commoner" Dies

Mrs. William Jennings Bryan, widow of the "Great Commoner," died at Los Angeles, Cal:, January 21. During the lifetime of her noted husband she was known to thousands of their political friends as "Bryan's inspiration." Mrs. Bryan, whose maiden name was Mary Elizabeth Baird, was born June 17, 1861, at Perry, Ill.

WHITE HOUSE QUICK TO DENY CHARGE ON PATRONAGE MATTER

CHAIRMAN OF DEMOCRATIC EXECUTIVE COMMITTEE TAKES UP INDEX CARDS

WASHINGTON, Jan. 27.—(AP)—A sternly worded denial came quickly from the white house last night after Jouett Shouse, chairman of the democratic national executive committee, had charged President Hoover with compiling information on government employes for the purpose of bringing patronage influence to bear against recalcitrant members of congress.

Such phrases as "democratic propaganda bureau" and "not an item of truth nor basis of fact" were mingled in the reply of the white house, issued through Walter Newton, one of Mr. Hoover's secretaries.

The democratic statement said that Mr. Hoover had sent cards to

(Continued on Page 5).

GOVERNMENT REPORT GIVES WARNING ON OVERPRODUCTION

MORE FAVORABLE MARKETING CREDIT CONDITIONS AND PLENTIFUL LABOR

WASHINGTON, Jan. 27.—(AP)—The American farmer is advised by the department of agriculture that he may expect more favorable marketing credit conditions this year and somewhat greater supply of labor at slightly lower wages, but is warned against imminent over production in several lines.

The department's annual farm outlook report, issued for publication today, forecast a lessened demand for farm products through the summer and fall, as compared with the same seasons of 1929, although an improved domestic market was predicted for the closing weeks of the year.

This report is regarded by the department as "probably the most important" of its annual economic studies. It is issued for the purpose of guiding the farmer in adjusting his production to meet the needs of the nation.

The forecast for 1930 listed more favorable farm mortgage financing conditions, no immediate change in the price of fertilizers, an unchanged price level for farm machinery and less satisfactory production credit conditions than a year ago in most of the south.

Wheat Prices About Same.

Wheat prices were forecast as much the same as those prevailing throughout 1929 unless winter damage should prove severe or the spring acreage should be reduced.

Cotton growers were warned against acreage, the report pointing out that for the last five years, with the exception of 1927,

(Continued on Page 5.)

TWO TROUBLESOME PROBLEMS FACING NAVAL DELEGATES

GREAT BRITAIN MAKES NEW GESTURE BY STOPPING WORK ON CRUISERS

By BYRON PRICE
Associated Press Staff Writer

LONDON, Jan. 27.—(AP)—As the naval powers moved toward compromise today on two of their most troublesome problems—the physical methods of limiting fleets and Italy's demand for parity with France—Great Britain made a new gesture of faith in the conference success by announcing that construction of her two newest cruisers had been cancelled.

The British announcement coincided with a meeting of the "big five" in Downing street at which further progress was said to have been made toward a compromise on a tonnage plan designed to settle the perennial argument on this technical phase of naval limitation.

At the same time it was disclosed that serious consideration was being given by several delegations to a proposal that the Italian parity problem be met by a treaty declaration in which all powers would join. This would state that the sovereign right of every nation to build an adequate fleet was fully recognized, but that the signatories voluntarily agree not to exceed a certain construction.

The twin attack on two of the most difficult of the conference problems, coinciding with the British cruiser cancellation announcement, started the second week of the conference in an atmosphere of smiling confidence. It was emphasized on all sides, however, that neither of the compromise formulas had yet been accepted and that much remained to be done if these two obstacles should be overcome.

Tonnage Measurement Plan

The tonnage measurement plan, which was discussed for more than

(Continued on Page 5).

Father of Slain Girl Requested Withdrawal Of Special Counsel

COURT ROOM, Austin, Jan. 27.—(AP)—A statement saying that at his request, special prosecutors in the John Brady murder trial were dismissed was issued today by A. G. B. Highsmith, father of Miss Lehlia Highsmith, whom Brady is accused of slaying.

Highsmith said:

"During the early part of last December after full consideration, I determined that I preferred to have the prosecution of this case conducted by the officers of the law who had no interest in the case except that incident to the performance of an official duty, and therefore that I did not want the gentlemen who had been employed as private prosecutors to any longer continue in the case. This decision on my part was reached without any consultation whatever with Mr. Brooks (district attorney), and since these gentlemen were originally in the case as my representatives, I did not consider it necessary to state publicly any reason for my conclusion that I no longer desired their services. However, on Dec. 14, I wrote Mr. Brooks telling him of my conclusion and my reasons.

"He had never broached the subject to me prior to that time. On Dec. 15 Mr. Brooks wrote me, saying that in accordance with the conclusion I had reached, he was writing to the gentlemen who had been employed as private prosecutors, requesting their withdrawal. Upon receipt of this letter I immediately wrote to them also, requesting their withdrawal and nothing further was said until nearly a month later when Messrs. Harris and Harris saw fit to publish an isolated part of the correspondence written by themselves to the district attorney, and making no mention of the fact that I also had requested them to withdraw. Although the matter was then nearly a month old, it was thus made public on the very eve of the trial, at a time when further public discussion of this irrevevant issue could only serve to disqualify prospective jurors. For this reason neither the district attorney nor myself was willing to make any statement until after the jury was empaneled. His action was taken at my suggestion and with my sanction and co-operation, and any intimation to the contrary is unfounded in fact. This statement is given to the press with the request that it either be published in full and as written, or not at all."

Cowboy Mayor Of Omaha Dies

James C. Dahlman, mayor of Omaha, Neb., who gave up the life of a cowboy to become a politician, died at Excelsior Springs, Mo., January 22. He was mayor of Omaha, with but one intermission, since 1906. He had filed January 11 as candidate for his eighth term.

FIRST WITNESS IN TRIAL FORMER JUDGE TELLS OF KILLING

COMPANION OF BRADY AND MISS HIGHSMITH GIVES INTERESTING TESTIMONY

COURT ROOM, AUSTIN, Jan. 27.—(AP)—F. R. McNaughton was the first witness called by the state in the John W. Brady murder trial.

Those spectators who could get in remained in their seats during the recess. Some brought their lunches along. At 1:30 others were outside at the doors, and they kept coming in, standing wherever they could.

After an argument among attorneys as to whether certain witnesses should be dismissed, District Attorney Brooks said loudly:

"Call F. R. McNaughton;"

McNaughton said he was an employe of a stationery firm here and had known Brady "about three months" prior to Nov. 9, 1929, the date Lehlia Highsmith was killed.

On Nov. 9, he said, he lived at 210 East Tenth street here.

"Had you seen Judge Brady in company with Miss Highsmith prior to Nov. 9?"

(Continued on Page 9.)

SPANISH DICTATOR PLACES HIS FUTURE IN HANDS FRIENDS

MADRID, Jan. 27.—(AP)—Primo De Rivera today awaited the answer of leading military and naval officers of Spain to his point-blank question whether he should continue his dictatorship or tender his resignation to King Alfonso at once.

The leading military and naval heads number about 17. All of them owe their rise to the general. They comprise two captain generals, the chief of the forces in Morocco, three naval officers and the directors of the guardia civil.

General Primo, issuing a formal note to them Sunday, said he would resign within five mginutes should the reply be that he was no longer wanted.

His action followed a month of unrest during which rumors of weakness of his government were persistent.

OKLAHOMA FARMER CONFESSES TO BEATING NEIGHBOR DEATH IN ORDER TO SECURE HIS WIFE

DURANT, Okla., Jan. 27.—(AP)—A. J. Eastep, charged with murder in the deaths of his wife, Sarah, and Will Hughes, confessed here today he clubbed Hughes to death at the latter's home the night of November 26, but denied killing his wife, Ruel Taylor, sheriff, said.

Eastep declared Ila Hughes, his alleged paramour and widow of Will Hughes, poisoned Mrs. Eastep. Mrs. Hughes previously had confessed to complicity in her husband's death. In her confession, she said Eastep told her before Mrs. Eastep's death, that he was going to poison his wife. Mrs. Eastep died about a month before Hughes was beaten to death.

Eastep's confession was made shortly after his return here from the penitentiary to be arraigned. He was taken to the penitentiary for safe-keeping after his arrest. Mrs. Hughes, also charged with murder in her husband's death, has been held in jail here.

Sheriff Taylor said Eastep told him and other officers that he beat Hughes to death with a club, which he later burned. He maintained that Mrs. Hughes poisoned his wife, according to prearranged plans in which she was to kill his wife and he was to kill her husband so they could be married.

Eastep said part of Mrs. Hughes' confession in which she said he beat Hughes to death after telling her he was going to poison his wife was correct, but declared some of the statements were fabricated.

He corroborated her story that he went to the Hughes home near Utica, southeast of here, and beat Hughes to death after Mrs. Hughes sent her husband to the barn on the pretense that their horses were in the cornerib. Mrs. Hughes was standing ten feet away when he struck the last blow, Eastep told the officers.

"I feel better now and am ready to ask mercy of the court," Eastep said.

Following Mrs. Hughes' confession, made a few days after her husband's death, Mrs. Eastep's body was exhumed and the contents of the somach examined to determine if she had died of poisoning. The state chemist reported that a slow working poison sufficient to kill a dozen persons was found in her viscera.

TRANSFER OF PRO ENFORCEMENT UNIT URGED BY MITCHELL

ATTORNEY GENERAL SEEKS TO EXPEDITE ACTION OF TRANSFER LEGISLATION

WASHINGTON, Jan. 27.—(AP)—Attorney General Mitchell today urged the house expenditures committee to expedite action on legislation to transfer the prohibition enforcement unit from the treasury to the justice department.

Mitchell said he was in accord with the recommendation of Secretary Mellon before the committee favoring the transfer and endorsed the Williamson bill to effect this change.

Attorneys in the treasury department connected with the prohibition unit would be transferred to the justice department along with the agents in order to carry on prosecutions, Mitchell said.

He opposed putting prohibition unit attorneys under the civil

Blonde Girl Is Leader Robbers Jewelry Store

BUFFALO, N. Y., Jan. 27.—(AP)—A blonde-haired girl, principal figure in several robberies in Buffalo recently, led two gunmen into the jewelry stor of David Glickstein on Broadway today, bound and gagged Glickstein and escaped with gems valued at $10,000.

Description of the girl given by Glickstein tallied with that of the young woman who held a revolver in other holdups here, in one of which she exchanged shots with a Seneca street pawnbroker. She was believed to have been wounded in that encounter.

Glickstein said she directed the robbery, giving her orders sharply and rapidly.

SAYS ROOSEVELT TO BE ACCEPTABLE FOR PRESIDENCY

NEW YORK, Jan. 27.—(AP)—The New York Times today quoted William E. Sweet, former governor of Colorado, as expressing opinion that Franklin D. Roosevelt of New York would be acceptable to dry democrats as a presidential candidate in 1932.

Mr. Sweet, who has been a leader in prohibition movement in his own sate, is visiting New York.

He said it was time for the dry democrats and democrats of the south to get together; otherwise, Alfred E. Smith was likely to get the nomination again with no prospect of election.

Mr. Sweet condemned democratic efforts in some parts of the south to discipline officials who bolted Smith.

SCIENCE BRINGS FORWARD NEW LIGHTNING ARRESTOR; THYRITE GIVES IT "GATE"

BY HOWARD W. BLAKESLEE
Science Editor, Associated Press Feature Service.

NEW YORK, Jan. 27.—(AP)—Discovery of a new material named thyrite, which offers better protection from lightning, was announced to the American Institute of Electrical Engineers today by Karl B. McEachron of the General Electric Company.

Thyrite is a compound, in appearance a cross between black slate and porcelain. Its name, of Greek derivation, means gate, and for electrical current it is almost literally a gate in more senses than one.

For ordinary currents used in the industrial and household worlds, thyrite is a good insulator, a restrainer that keeps the current from jumping out of bounds, a closed gate. But when electricity becomes too ardent, thyrite "gives it the gate." If a tremendous overcharge comes along the wire, such as a stroke of lightning, thyrite changes from insular into a good conductor, offering a ready and harmless pathway for escape of the overcharge.

"Thyrite," said Mr. McEachron, "has the property of decreasing its remarkable property of being substantially an insulator at one potential and a good conductor at certain higher patentials.

"For the first time in the history of lightning protection it becomes possible to calculate accurately the performance of lightning arrestors. The idea of using lightning arrestors along a line is not new, but suitable arrestors have not been available from the standpoint of size or cost.

Thyrite can be produced in any shape which cand be molded. The great advantages of the new arrestors lie in their performance, small size, low installation cost, small weight and the predictability of the results to be expected."

SMITHVILLE WOMAN FREED ON CHARGE SLAYING HUSBAND

GEORGETOWN, Jan. 27.—(AP)—Mrs. Rosa Waybourn today was a free woman for the first time in almost two years. Yesterday she was acquitted on charges in connection with the death of W. W. Waybourn her husband, at their home in Smithville March 10, 1928. The jury deliberated 15 hours.

The trial was her second, the first having resulted in conviction and a long penitentiary sentence. That case was appealed, and reversed. The second trail came here on a change of venue.

The state charged that Mrs. Waybourn and Hugo Middleton, an admitted accomplice, conspired to hire a Mexican, Joe Morales, to kill Waybourn. Morales never has been caught.

Middleton, now under a 99-year sentence in another case, testified against Mrs. Waybourn at the trial, but the court ruled his testimony would have to be corrogorated because he was under sentence.

MAYOR THOMPSON HOLDING OUT AGAINST FINANCING OF BANKRUPT CITY OF CHICAGO

CHICAGO, Jan. 27.—(AP)—Dwindling coal bins in the public schools kindled interest anew today in Chicago's empty money bags.

As some city officials frowned upon the rescue pool of $20,000,000 pledged to Silas H. Strawn, head of the citizens' committee; H. Wallace Caldwell, president of the board of education, prepared to ask the board's coal dealers to continue deliveries of coal despite the lack of cash and a present unpaid coal bill of $480,000.

There will be a respite until Wednesday. On that day, Strawn will confer with the city council finance committee relative to setting in motion the financial pool pledged to aid the city government.

Originally set at $50,000,000, the pool has $20,000,000 in pledges from business, industrial and railroad interests to be used in loans on tax anticipation warrants. No money will be loaned any of the governments, Strawn asserted, unless cooperation is pledged to reduce operating expenses to a minimum, and the committee has reserved the right to indicate for what purposes the money shall be spent.

While Mayor William Hale Thompson was still at loggerheads with the Strawn plan of relief, Chairman John S. Clark of the council finance committee said he believed the council would pledge the requested cooperation.

"There is no alternative," he declared. "The banks will loan no money, and the Strawn committee holds the only purse strings available."

Each day places the local governments deeper in debt. Already, $290,000,000 indebtedness as accrued in anticipation of uncollected 1928 and 1929 taxes, while interest of loans amounts to $50,000 daily. Teachers, policemen and nurses are behind a month's pay, the mother's pension fund is exhausted and the municipal tuberculosis sanitarium is in want.

RICE MAN KILLED BY SUNBEAM SUNDAY IS BURIED MONDAY

RICE, Jan. 27.—(SP)—Funeral services for Homer Castle, aged 50 years, who was instantly killed Sunday afternoon at 1 o'clock when he was struck by the southbound Sunbeam on the Southern Pacific lines here, were held Monday afternoon at 2:30 from his residence and were conducted by Rev. H. C. Bowman, Methodist minister. Interment was in the Rice cemetery.

Mr. Castle was walking across the track and no definite reason has been assigned for his failure to see the approaching train. It is thought that he was looking for a horse that he had gone across town to see about, when the accident occurred.

The deceased had been a resident of Rice for the past 25 years or more. He is survived by his wife, an adopted daughter, his father who lives at Handley, two brothers, M. Castle, Ferris; William Castle, Gainesville, and a sister, Mrs. Eva Bryant, Handley.

DREAMS OF WEALTH AND POSITION COME TRUE BUT GIRL DESIRES EDUCATION

PEPPERELL, Mass., Jan. 27.—(AP)—The dreams of wealth and position which all girls have came true today for 16-year-old Lucy Harriett Fagge.

She had believed herself to be the daughter of a humble chorceman, so poor after her mother died he couldn't care for her and sent her to her grandmother's home in Boston. There she had gone to grammar school and last fall had worked in a factory.

Her dad for many years had been Johnny Harry Lee Fagge, who worked at odd jobs about town, mowing lawns, mending broken furniture and doing similar tasks. Then word came from England of the death of his brother, Sir John Charles Fagge of Dover, baronet, and the passing of the title and estates to him. He asked for his daughter to share his new fortunes.

In his modest home here, Sir John told Lucy today of her ancestry, describing to her the Fagge crest and the distinguished forbears dating back to the Cromwellian wars, whose names occupy two full pages in Burke's peerage. He told her she was now Lady Lucy.

Her father plans to return to England when more instructions arrive. Lucy isn't sure she wishes to go.

"I have only been as far as the eighth grade in school," she said, "and aren't the daughters of titled men supposed to be very wise?"

MINISTERS SEEK RELIGIOUS SURVEY OF ENTIRE CITY

MATTER OF ADVERTISING CHURCH SERVICES MORE EXTENSIVELY DISCUSSED

At the regular bi-weekly meeting of the Corsicana Ministerial Association held Monday morning at the Y. M. C. A., it was decided to appoint a committee composed of A. C. Carraway, J. L. Hines, P. Martin Baker and J. Howard Williams, to look into the matter of making a city-wide religious survey, and to report their findings at a call session to be held next Monday morning.

Rev. P. Martin Baker, chairman of the program committee, made a partial report for the year, and suggested that the churches do more advertising, and a committee composed of P. Martin Baker, H. J. Ellis and C. E. McStravick was appointed to find out how many business concerns in the city would contribute their space once a week in the Daily Sun for purposes of advertising the church meetings. A report of this committee will also be made at the call session Monday.

Rev. J. Howard Williams, pastor of the First Baptist church, led the fifteen-minute devotional held preceding the business meeting.

A letter from Hamm and party was read at the meeting, in which it was stated that a revival would be held here during the month of April.

Court House

District Court.

The following have been summoned as petit jurors for the fifth week of the January term of the Thirteenth Judicial district court for the week, beginning Monday, Feb. 3:

H. R. McCandless, Corsicana; R. P. McEntire, Corsicana; A. D. McMichael, Corsicana; W. E. Bragg, Corsicana; W. P. Brown, Corsicana; Clayton Brown, Corsicana; Lee Moss, Corsicana; Max Bristen, Corsicana; John H. Bryant, Corsicana; J. Afton Burke, Corsicana; L. S. McNeill, Corsicana; L. K. Fluker, Corsicana 6; Charles Bolden, Purdon; J. L. Frazier, Corsicana 5; J. B. Adkins, Purdon; James D. Lawrence, Dawson 3; J. C. Garner, Dawson 2; J. M. Hodge, Chatfield; B. F. Marshbanks, Chatfield; J. L. Hatch, Roane; D. T. Sawyer, Dawson; A. C. Davis, Purdon; J. T. Peden, Barry 2; E. L. Slaughter, Purdon 1; E. V. Wiley, Roane 1; C. N. Meador, Frost; Tom Slay, Frost; J. E. Sharp, Frost 1; Sam Harvard, Navarro; P. M. Gladney, Corsicana 6; Z. T. Banks, Powell; T. E. Tadlock, Corsicana 6; H. I. Singleton, Eureka 1; W. C. (Buck) Montgomery, Eureka 1; W. H. Cockerell, Eureka 1; J. C. Tyner, Wortham 1.

The Navarro county grand jury, which recessed early last week due to the weather conditions, resumed its work and investigations Monday morning.

Compactness Big Feature in House

A compact floor plan of wide utility and pleasing exterior lines gives distinction to this English Georgian home. While it is suitable for a variety of lots, it can be placed in a plot as narrow as 50 feet.

A unique feature, the laundry on the first floor beside the connected garage, is especially appealing. The compact arrangement of the first floor provides access to the garage, laundry, basement and front entrance from any point in the house without passing through any other main room.

Either a woven wood fence or wall with iron fence is desirable to complete the setting. Building codes in some communities do not permit this, however, and the design is not dependent on it.

The master bedroom is provided with a private bath with a second bath for the other two bedrooms and a lavatory and toilet near the first floor entrance. Closets are ample.

Stucco or brick may be used for exterior walls and slate, tile or wood shingles for the roof, crowned by the chimney in red brick. Shutters are green.

Construction costs will vary according to choice and grade of materials and prevailing wage scale. The house can be built for $7,000, including heating and plumbing, in communities of medium size but estimates range between that figure and several thousand dollars higher.

Investigation Title Prison Land Planned

AUSTIN, Jan. 27.—(AP)—Representative Cecil Story of Vernon is preparing a resolution which would require appointment of a committee to investigate title of the approximately 80,000 acres of land owned by the state as a part of its penitentiary system.

The proposed investigation was inspired in part by discovery of legislators on their recent inspection trip to prison lands that all mineral rights had been reserved by the parties who sold the Blue ridge farm tract to the state and and that considerable oil is being produced there.

BELIEVED LIQUOR IMPORTING RING IS BROKEN BY ARRESTS

NINE MEN HELD IN GALVESTON AND OTHERS SOUGHT; MAY UNRAVEL MURDER

GALVESTON, Jan. 27.—(AP)—Breaking up of a liquor importing ring, which might lead to solution of a murder mystery, was the aim of federal prohibition and customs officers today, who, with nine men under arrest sought thirteen others named in complaints as violating the national customs and prohibition acts.

The fact that the charges alleged conspiracy to violate the federal laws on or about April 15, 1929, led to the belief that the government would undertake to connect the conspiracy with seizure of several shiploads of liquor since that date.

The murder which officials hoped to solve was that of Jimmie Clinch last October 11, killed with a sawed-off shot gun.

The arreset of George Page yesterday brought the total arrests to nine. Others arrested and freed on bond were A. Gleich, motorcycle officer; Joe Marrero, patrolman; Harry Evelt, garage owner; Leon Sabanovich, Andrew L. Best, M. S. Chetcovich, Richard Coffield, and a man named Barrett.

MAN KILLED AT LUMBER CAMP BY UNKNOWN ASSASSIN

WOODVILLE, Jan. 27.—(AP)— Officers today sought the man who Saturday night fired the full charge of a double-barreled shotgun through a window of Dallas Spurlock's home at a lumber camp near here, killing a man named Barber.

Owing to lack of communication and almost impassible roads, full details were not immediately obtained.

The killing took place at a Kirby Lumber Company camp about 25 miles southeast of here. Spurlock and Barber were playing a phonograph when the shots were fired. Barber was hit in the back. Two empty shells were found on the porch.

Many Houses Fall During Earthquake

ATHENS, Jan. 27.—(AP)—Many houses collapsed yesterday on the islands of Psara and Anti-Psara in the Aegean sea during a violent earthquake. There were big cracks in other buildings.

Inhabitants were panic stricken and deserted their homes for the open country. No loss of life was reported.

CARD OF THANKS

We heartily wish to thank every one for their kindness and help, and also the beautiful floral offerings in the bereavement of our dear daughter and sister.
MRS. E. J. CHAMPION,
and Family.

Exceptions Filed In Adverse Report On Rail Extension

FORT WORTH, Jan. 27.—(AP)—Expectation that the case might be reached on the docket of the interstate commerce commission within 60 days was expressed by Fort Worth and Denver officials here today after announcing that the railroad had filed exceptions to the unfavorable recommendation of Examiner Thomas F. Sullivan on its proposal to extend from Childress to Pampa. The filing of exceptions was accompanied by protests of the examiners report by the boards of city development of Childress and Pampa, which pointed out the necessity for the road.

FREIGHT TRAFFIC MANAGER TO MEET AT BROWNSVILLE

BROWNSVILLE, Jan. 27.—(AP)—Approximately 150 freight traffic managers from east of the Rocky mountains meet here tomorrow for the first freight rate association conference ever held west of the Mississippi.

Little entertainment has been planned for the three-day meeting, the managers having numerous proposed rate adjustments from all rections in their territory to consider.

One of the most important matters to Texas will be consideration of rates on citrus from the Rio Grande valley. To obtain first hand information on the valleys principal industry, a trip will be made up the valley Wednesday afternoon.

P. H. Coon, traffic manager of the Missouri Pacific, has been in the valley several days making preparations for the meet.

INDIA ALIVE AS ASPIRATIONS FOR FREEDOM VOICED

BOMBAY, India, Jan. 27.—(AP)—Stirring scenes were enacted in various parts of India Sunday as nationalists advocates the empire over expressed their aspirations for Indian independence.

One hundred thousand assembled at Chowpathy sands and passed an independence resolution. A strong communist mill workers' faction clashed with nationalists, and in free-for-all fighting several were injured.

At Ashram, the little colony of Mahatma Gandhi, venerable advocate of Passive resisance to British dominion, spent the day with fasting and spinning and at an evening meeting in the presence of their leader passed the resolution for independence.

Huge processions were held here, at New Delhi, Calcutta, Lahore and Ahmadabad.

NONE INJURED IN WRECK.

HURDLAND, Mo., Jan. 27.—(AP)—One hundred and seven passengers aboard the westbound Grand Canyon Limited, No. 23, crack all Pullman train of the Santa Fe, were shaken near here today when a baggage car and four Pullmans left the track. None of the cars turned over, and officials said no one was injured.

Engagement of Princess Ileana

BUCHAREST, Rumania, Jan. 27.—(AP)—Official announcement of the engagement of Princess Ileana, the daughter of Dowager Queen Marie, to Count Alexander of Hochberg, second son of the Prince of Pless, is expected next Saturday. The approaching engagement was celebrated at a family gathering at Predeal yesterday. The princess celebrated her twenty-first birthday this month.

CHEVROLET

Dollar for dollar

—the new

CHEVROLET SIX

is a sensational value!

Every investigation of the new Chevrolet Six must lead to a single definite conclusion — dollar for dollar, it offers more than ever before!

MORE PERFORMANCE—for the new Chevrolet has a great six-cylinder valve-in-head engine—increased to 50 horsepower....remarkably smooth and quiet....and capable of carrying you along with ease at every driving speed.

MORE COMFORT—for the four long semi-elliptic springs are under the cushioned control of Love-joy hydraulic shock absorbers!

MORE SAFETY—for the braking system has been re-designed....with fully-enclosed, internal-expanding, weather-proof brakes, both front and rear! Rain or shine—when you put your foot down, you stop!

MORE BEAUTY—for the new bodies are built by Fisher....with all the style, smartness and distinction for which the Fisher name is famous. In hardware, upholstery, construction and finish—Chevrolet coachwork is unapproached at the price!

MORE STAMINA—for the new Chevrolet has a stronger rear axle, a heavier crankshaft and a sturdier transmission!

MORE VALUE—for the new Chevrolet is a smoother, faster, better Six—yet it sells in the price range of the four!

If you are considering the purchase of a low-priced car—come in and see for yourself that the Chevrolet Six gives you more for your money. It will take you only a few minutes for a personal inspection and a ride at the wheel. Come in today!

SALES CONVENTION MAGNOLIA COMPANY LARGELY ATTENDED

NUMBER OF FORMER CORSICANA MEN ARE COMPANY OFFICIALS

J. W. McGill, district manager for the Corsicana territory for the Magnolia Petroleum company, has just returned from Beaumont where he attended a convention of the sales department of the company Friday and Saturday.

Officials of the company present included E. P. Angus, general manager; J. H. Jenkins, division manager; C. R. Bates, assistant manager; Frank Camp, assistant manager; E. T. Crosson, manager filling stations and Mr. McGill.

Many courtesies were extended those attending the convention by F. E. Plumley, general superintendent of refineries, assisted by Ralph Kinsloe who is first assistant to E. R. Brown president of the company. One of the features of the convention were addresses by two Magnolia chemists explaining in detail the commodities manufactured by the company and the process of production.

Texas, Oklahoma, Arkansas and Louisiana divisions of the Magnolia company were represented at the convention.

The visitors were taken on a tour of inspection of the big Magnolia refinery at Beaumont with every department visited. The party was divided into groups of eight with a refinery head in charge of each group.

The convention gave a vote of thanks to Mr. Plumley for the splendid entertainment arranged for the visitors as well as to Mr. Angus.

Messrs. Plumley, Angus, Jenkins, and Kinsloe are all former residents of Corsicana where they still have many friends.

NATIVE OF NAVARRO COUNTY DIED SUNDAY AT WORTHAM HOME

WORTHAM, Jan. 27.—(Spl.)—W. M. McCarter, age 65 years, died Sunday afternoon at the home of his daughter, Mrs. Bolen Riley, here and announcement of the funeral services are awaiting the arrival of relatives.

Mr. McCarter suffered a stroke of paralysis and was found unconscious in the yard. He lived about four hours after the stroke.

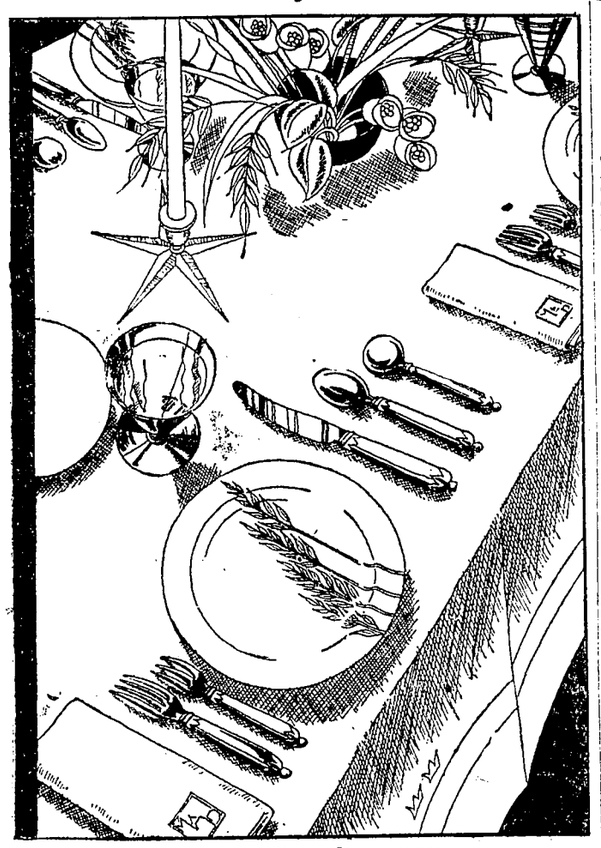

The deceased was born in Navarro county and had spent his entire life in the Wortham community. He was a retired farmer and was well known in this section of the county.

Surviving are two daughters, Mrs. Bolen Riley, Wortham, Mrs. Leonard Craig, Lubbock; two stepsons, Tom Meador and Ben Meador, Wortham.

Funeral services will be conducted by Rev. C. E. Richter, pastor of the Central Presbyterian church here. Burial will be in the Wortham cemetery.

New Color Harmony in Table Setting

A table set the ultramodern manner

By MARGERY TAYLOR
Interior Decoration Editor, McCall's Magazine. Written For the Corsicana Daily Sun.

Color is the silent music with which the modern hostess is adding new charm to her dinners.

The new notes in table setting—the colors of line, china, glassware and flowers — the clever hostess is blending into the ensemble of the dining room. With that good taste which always seeks the right note for the right occasion, she varies the new color menu, as it were, with the nature of the meal.

She has a world of color from which to choose and is limited only by her imagination—and budget. Since it is the largest color mass in the scheme, the table cloth strikes the keynote—and what possibilities it opens, when it might be in soft peach, daring powder blue, lucid green, a versatile "natural," silvery gray, or rich dull gold!

A blue cloth—set with delicately flowered china, goblets of pink glass, silver candlesticks and pink rosebuds—wouldn't that be a prelude and an accompaniment for the noblest meal?

For luncheon a green checked tablecloth makes the perfect background for green glassware, yellow pottery with a deep scalloped edge, and a centerpice of yellow calendula.

Even a white tablecloth may have its moments—set with those pattern plates with a fluted orchid ruffle, orchid glassware and a centerpiece of cosmos repeating that color note.

Very modern and gay are red patterned plates, ruby colored glass rising from a background of grey cloth set with pewter.

Do not let your zeal for color lure you into discord or confusion. The perfect contrast is expressed in two colors, no more. With green dishes, either peach or yellow is delightful—but both, in peach linen and yellow glassware, would blur the scheme. For very formal occasions, many color enthusiasts are still using white linen and crystal.

The new table cloths will be new fro a long time—do not hesitate, fearing they are a fad. If you are planning a complete new service, it would be intriguing to forget the "set" tradition. Buy your plates, cups and saucers from a set but use silver or pewter and glassware for salad, dessert and soup courses.

FUNERAL SERVICES FOR WILLIE CREWS WERE HELD SUNDAY

Funeral services for Willie Crews, 21, employee of Fred M. Allison Motors, who was electrocuted Friday afternoon shortly after 5 o'clock while aiding in the removal of a guy wire on a spotlight, were held at Blooming Grove Sunday afternoon at 3 o'clock with interment in the Blooming Grove cemetery. The funeral cortege left Corsicana at 10:15 o'clock Sunday morning on th Cotton Belt.

While a group of men were engaged in removing the guy wire, the line apparently sagged against a 11,000 volt feeder line, sending the full charge through Crews' body. He was rushed to the Corsicana Hospital and Clinic but efforts to revive him were unsuccessful.

The accident opened a circuit-breaker at the sub-station in North Corsicana and several blocks of homes and business houses were deprived of power and lights for some time.

Surviving are his mother, Mrs. Harry Allison, one brother and two sisters.

Pallbearers were J. B. Beard, Clyde McGehee, Marvin Morgan, Willie Lee Burge, James Beard and Elliott Barnes.

The funeral was directed by the Sutherland Funeral Home.

EL PASO MEXICAN FOUND SLAIN; TWO AMERICANS SOUGHT

EL PASO, Jan. 27.—(AP)—Missing for 12 days, William Garcia, El Paso Mexican, has been found dead north of town. Authorities announced yesterday that the man, owner of a cafe in Juaraz, had been shot in the head and apparently was the victim of El Paso gangsters.

Two Americans were sought as suspects.

Garcia disappeared Dec. 13, and it was believed possible he had been murdered and his body buried in the sand hills south of Juarez, but the discovery of the body north of here led officers to advance the theory he had been taken for a ride.

WORLD EVENTS MOVED FAST PAST WEEK AS CONFERENCES HELD IMPORTANT MATTERS

By SAVINGTON CRAMPTON
Cable Editor, the Associated Press

The five-power disarmament conference at London went into action last week.

In seven days the delegates have formally opened the conference in the presence of King George, held one business session in which the five leaders stated their countries' naval needs and put in much labor at private negotiations.

So far, the Franco-Italian political difficulties, upon which the Franco-Italian disagreement over naval strength depends, offer the greatest point of anxiety. Next to them stands the cruiser problem, which particularly affects Great Britain and the United States.

Delegates to the second Hague reparations conference signed the protocol approving the Young plan, which now goes to the different parliaments for ratification. By this agreement Hungary was released from financial control of the League of Nations. Final approval of the Young plan will bring important modifications to the financial side of the Versailles peace treaty.

Mexico and Soviet Russia ran into difficulties over communist agitation in foreign countries against certain Mexican political groups. The Mexican foreign office announced withdrawal of Mexican diplomats from Moscow.

The territorial dispute between Boliiva and Paraguay grew threatening momentarily, causing President Zaleski of the League of Nations council to send telegrams urging the two countries to settle it peacefully. Bolivia denied Paraguay's accusation of planning a military invasion in the Chaco Dodeal region.

Students in Madrid went on strike, declaring the Spanish dictatorship was attempting to suppress student organizations.

"Independence day" in India caused some disquiet to British authorities, who fear many nationalists will not accept Gandhi's insistence on peaceful attainment of their aspirations.

WILL PROBE DEATH FORMER OFFICER AS TRIAL APPROACHES

OKLAHOMA CITY, Jan. 27.—(AP)—Opening of the Pottawatomie county liquor conspiracy case, set for trial here today, was postponed until tomorrow by agreement because of another case on the docket.

OKLAHOMA CITY, Jan. 27.—(AP)—Circumstances surrounding the death of Marion Fuller, former chief of police of Earlsboro, Okla., on the eve of the trial of 102 officials and citizens of Pottawatomie county, charged in a federal indictment with a gigantic conspiracy to violate the prohibition law have prompted Roy St. Lewis, United Soutes district attorney, to say he will start an investigation.

Fuller died here Saturday night. Fuller, the district attorney said, had made a detailed statement as to the conspiracy, admitting participation in it, and had furnished information on whch the government's case largely was based.

Fuller died in an Oklahoma City hospital, his death certificate describing his fatal malady as a liver infection, but members of Fuller's family, Lewis said, had made certain complaints regarding his death.

FILLERS WILL BE AMONG SPEAKERS AT MEN'S CONVENTION

WAXAHACHIE, Jan. 27.—(Spl.)—H. D. Fillers of Corsicana will be one of the speakers at the Men's Convention of the Presbyterian church to be held in Fort Worth Wednesday, Feb. 12, according to a program released here today by H. L. Williamson, business manager of Trinity University, who is secretary-treasurer of the convention.

Dr. Cleland B. McAfee of Princeton Seminary, moderator of the Presbyterian church, U. S. A., will deliver addresses at the morning and evening sessions. Dr. George P. Hurst of St. Louis, director of Men's Work in the Southwest, and Dr. William Hanzsche of Chicago are among the other out of state speakers on the program.

W. C. Proctor of Dallas is president of the Convention and John H. Orr of Ferris and E. L. Routh of Breckenridge are vice-presidents.

TEXAS LEAGUE WILL PROBABLY SPONSOR CLASS D LEAGUE

NUMBER OF TOWNS IN EAST CENTRAL AREA READY TO GO

BY PAUL MOORE.

DALLAS, Jan. 27.—At an enthusiastic and harmonious meeting of the officials of the Texas league and representatives of a number of cities in the East-Central Texas area here Saturday, plans were outlined for the proposed organization of a class D league for the approaching season with the individual owners of the Texas league clubs sponsoring the clubs. Six clubs reported that they were ready to enter the proposed loop and two others signified that it was highly probable that they would be ready. The proposed league is to be patterned after the Nebraska state league.

Tyler, Palestine, Mexia, Longview, Sherman and Mexia said they were ready to go while Corsicana and Cleburne representatives voiced the opinion that their towns would likely enter the proposed league.

The proposition put forth by the Texas league magnates is to the effect that the proposed members of the league furnish a ball park and pay $3,000 into the league treasury and in turn the Texas league sponsors will guarantee a full season. Fred Ankenman, president of the Houston ball club, outlined, the proposition to the representatives, stating that the proposed league would not be worked as a Texas league affair, but that the individual clubs in the Texas league would sponsor the clubs, like the Nebraska State league and on the same principle that the St. Louis Cardinals operate with the Houston and other clubs.

Mathes President.

Joe Mathes, well-known player and baseball executive is to be the president of the league and will handle all of the details of the league, its organization and conduct.

Mathes will visit the various cities when asked to in the effort to raise the necessary enthusiasm and funds. He is a clean-cut fellow and has the confidence of all of the Texas league club-owners and sport writers who are acquainted with him.

ia? Csfalusine shrd shr shrdshr

It is proposed that the class D clubs shall be composed of a veteran manager who shall not receive more than $300 per month and the players, rookies principally, shall receive $100. Four class D players can be carried on the club.

Each club will be composed of fourteen players which will provide for at least nine rookies.

The present outlook for line up is for Dallas and Corsicana, Waco and Mexia, Houston and Tyler, Fort Worth and Cleburne, Wichita Falls and Sherman, and Shreveport and Palestine.

Fort Worth was not so interested in the proposed league and intimated that the club wanted to affiliate with the West Texas league. San Antonio and Beaumont were not very inthusiastic over the proposition.

Another Meeting.

It is expected that another meeting will be held within the near future to outline more plans for the proposed league.

Cleburne and Corsicana, rivals of years standing on the football field, will be forced to expend more money than other clubs due to the fact that they have to provide playing fields. Other clubs in the proposed league already have baseball parks and grandstands.

It is likely that a meeting will be held in Corsicana within the next few days to find out the attitude of local fans on the proposition. Joe Mathes may be here for the meeting.

Fred McJunkin and Bob Tarleton of the Dallas club come out boldly and without reserve that they want Corsicana to be operated by the Dallas Steers. It will be remembered that the Steers desired to operate the Corsicana franchise last year but the proposal did not materialize.

Lone Star League.

The proposed league will in all probability be called the Lone Star League. All receipts from games in the various cities will be turned into the league treasury and at the end of the season, the losses or profits from the entire league will be prorated by the participating Texas league clubs.

Among those present at the meeting were J. Alvin Gardner, Wichita Falls, president of the Texas league; Fred McJunkin and Bob Tarleton, Dallas, club; Bill Huff, Wichita Falls; Homer Hamomnd, San Antonio; Fred Ankenman, Houston; Bob Stowe, Fort Worth; Rube Stewart, Beaumont; Buzz Hickman, Shreveport; Del Pratt, Waco; Joe Mathes, Houston, who will likely be president of the proposed new league; Jimmy Maloney, Dallas, old-time baseball man; Turkey Gross, Mesquite, formerly player in Texas league and manager of Dallas and Paris; Les Tullos, old-time player manager and umpire; Ray Falk, Dallas, formerly Dallas player and formerly Corsicana manager; T. L. Denman, Mt. Pleasant and formerly president of the East Texas league; Jess McClendon, Mexia; L. H. Young, S. L. Talley, Pat Murphy, John Arnold and Hy Tuck, all of Sherman; Roy Aiken, Waxahachie, formerly umpire and manager in Texas association; F. J. Woodring, Terrell; W. Z. Herman and the writer from Corsicana; Harold V. Ratliff and Harry Sensabaugh, Cleburne; and others.

New Minor League Discussed at Dallas Meeting on Saturday

DALLAS, Jan. 25.—(AP)—Texas league moguls were called to meet here today and discuss formation of a cooperative baseball league in East Texas.

A survey of East Texas cities, including Longview, Paris, Texarkana, Palestine, Mexia, Tyler, Corsicana, Temple and Sherman, has been made. The plan of the new league would be for money to be handled through the president's office, and all salaries paid there. The slary limit for players would be $125 a month and the league would be class D.

The Dallas News today said it was understood Beaumont was not interested in the plan and that San Antonio, Fort Worth and Wichita Falls probably would refuse to lend any aid to the proposed established West Texas league.

Roaming the Realm of County Sports

By DELMORE OLSEN.

The Corsicana high school basketball team added its seventh and eighth victories of the season last week end by defeating the Hillsboro Eagles in a pair of contests on the Hillsboro court. The Tigers of Corsicana won the initial game Friday night 30-11 and turned the trick the following evening, 34-7, giving them a grand total of sixty-four points to 18 for the two games.

The Tigers must have been pretty hot in both games, both on offense and defense, with Jeffers and Pollard, taking turn about in leading the scoring, while the work of Clark and Pryor was great at guarding, the record of eighteen points in two games speaks for itself, it is some trick to hold the opposition to ten or eleven points in a contest, but the guards, with the aid of the front line men turned the trick in each game.

The Tigers seem to have hit their stride and are going along at top speed. They will need all the power they can muster in the remaining games of the season, in Waco Tuesday night, Highland Park here Saturday night, Athens here February 7th and a return engagement with the national schoolboy champions later in the season.

The Corsicana Y Triangles deserve better support from basketball fans in Navarro county than they have been receiving in the two games played here this season. Small crowds have turned out for the contests, and those who have missed the games, missed two thrilling scrap. Next Friday evening the Triangles play the first of a three-game series to decide the championship of the Northeast Texas division of the Y. M. C. A. basketball race. The game will be played on the local Y court against the Dallas Y Aces, second place winners in the state tournament last season.

If the Triangles win the championship of the division, it is likely that the state tournament will be played in Corsicana, it was learned from a reliable source. In that case, the Triangles will have considerable at stake in the game with the Dallas Aces, and will put forth every effort to bring the state play-off to Corsicana. A large crowd should be on hand Friday night for the initial game.

On the following night, the Triangles journey to Dallas for a return engagement, and if a third game is needed, will play on the Highland Park court February 11th for the district championship.

Plans for a Junior and Intermediate Sunday school basketball league for Corsicana will be made at a meeting of representatives to be held Monday night at the Y. M. C. A. It is expected that the schedule will be made at the meeting.

TIGERS TURNED IN EIGHTH STRAIGHT VICTORY SATURDAY

JEFFERS LED SCORING FRIDAY AND POLLARD HIGH MAN SATURDAY NIGHT

HILLSBORO, Jan. 27.—(Spl.)—The Corsicana Tigers turned in their seventh and eighth straight victories of the season here during the week-end when they socked the Hillsboro high school Eagles, 30-11, Friday night, and 34-7, Saturday night.

The visiting club ran wild at will in the Saturday night melee, leading 8-0 at the first period and 21-2 at the half.

Pollard, center for the Tigers, was high scorer Saturday night when he accounted for 13 points. Jeffers of Corsicana pressed Pollard with 11 points.

Corsicana completely outclossed the local club in all departments of the game.

Jeffers of Corsicana was the leading scorer in Friday night's affair with eight points.

In the two games, Corsicana scored 64 points as compared with 18 for the locals.

The Hillsboro mentor switched positions of most of his club Saturday but the relentless Tigers stopped the locals at all stages of the game and turned in their most decisive victory of the four games played this season with the Eagles.

MEXIA BAPTISTS TO REBUILD BURNED CHURCH AT ONCE

MEXIA, Jan. 5. (Spl). Immediate rebuilding of the First Baptist church, destroyed by fire Wednesday morning, has been voted by the members of the congregation. A committee will be named at once to confer with architects regarding plans for a new structure, Rev. J. H. Cezad, pastor, announced.

The $100,000 church was completely destroyed in the early morning fire, just ten years after a former Baptist church was burned on the same lot.

A larger church, more modern with an educational building, will be erected. A location will be selected that will provide more ground space, the present quarter block, the pastor said. The congregation will seek to erect the new church free of debt, although only $84,000 of the loss was covered by insurance and there was a debt against that.

The municipal auditorium will be used for services pending erection of the new building.

Rice Bulldogs Won Saturday Night Over Y. M. C. A. Dragons

In the curtain raiser event to the Triangle-Trinity Pharmacy Cub contest on the Y court Saturday night, the Rice high school cagers, winners of the recent Y. M. C. A. invitation basketball tournament for class B schools, won a well-earned 21-18 victory over the Y Dragons, despite a determined rally in the final period by the losing aggregation to wrest the lead from the class B champs.

Reuben Shepard, Dragon forward, was high point scorer of the contest with eight points, followed by Miles, Rice guard, with seven.

The Box Score.

Y Dragons—	f.g.	f.t.	p.f.	t.p.

Odd Fellows Home Won Over Zion's Rest Saturday Afternoon

The I. O. O. F. Home basketball team won a scoring bee from the Zion's Rest Independents, 37-28, Saturday afternoon on the local Y. court, with Jay Arnold, Odd Fellow center and forward, and Elmer Yorbrough, coach of the Zion's Rest High school team, tieing for high point honors with 14 points each.

Both teams used a number of substitutes during the fray, the Zion's Rest Independents four and the I. O. O. F. Home three.

Tiger Reserves Are Victors Over Rice Here Friday Night

While the main squad was making an invasion of the Hillsboro Eagles stronghold, the Corsicana high school Reserves indulged in a successful fray here Friday afternoon, winning over the Rice Bulldogs, Navarro county class B champions, 28 to 17, on the Y court.

Owen and Dill, flashy pair of forwards playing with the Reserves shared high point honors with ten points each. Miles, Rice guard, led his team's scoring with seven points.

Hightower and Price, Reserve center and guard, respectively, turned in neat games for the victors, as did Medford and Hobbs, forward and center for Rice.

SAN ANTONIO HAS HAD MANY PILOTS PAST SIX SEASONS

SAN ANTONIO, Jan. 27. —(AP)— When it comes to changing managers frequently and on short notice, it is doubtful whether any minor league club can match the record of the San Antonio Indians for the last six seasons.

In that time, since 1925, the club has had no less than eight pilots. The best any other Texas league team can boast in the same period is seven, at Dallas, Houston has had five, Beaumont four, Wichita Falls three, and Fort Worth and Shreveport two apiece.

Waco is the only team in the league that has not undergone a managerial shift since it became a member. Del Pratt was appointed pilot of the Cubs when they entered the present class A circuit in 1925. He still is there and indications are he will be for years to come.

San Antonio's list of foremen in the last six seasons includes Bob Coleman, 1925; Honus Mitze, 1926; Bob Couchman and Ray Flashkamper, 1927; Frank Gibson, 1928; Pat Newman and Bill Alexander, 1929, and George Burns, 1930.

A peculiar feature is that winning managers since 1925 in the Texas league have had difficulty holding their jobs the following season. Dallas has beheaded two winners, Snipe Conley in 1926 and Milt Stock in 1929. Carl Williams lost out after capturing the 1927 pennant for Wichita Falls.

EMHOUSE DEFEATED ZION'S REST FRIDAY NIGHT FINAL PERIOD

A spirited rally in the final period which netted twelve points featured the 21 to 6 win by the Emhouse cagers over the Zion's Rest team Friday night on the local Y. M. C. A. court. Owen, Emhouse forward, led the scoring with eight points. Franks and Holloway, forward and center, of the Zion's Rest squad, scored three points each for the total amassed by the north Corsicana boys.

Burks and Bass, Zion's Rest guards, turned in good games at guard posts as did N. Johnson and Payne for Emhouse.

The Box Score

Hunting Season For Waterfowl to Close Sunset January 31

WASHINGTON, Jan. 27.—(Spl.)—The open season under the Federal regulations for the hunting or shooting of wild ducks, wild geese brant, coots, and Wilson's snipe or jacksnipe closes at sunset on January 31, on Long Island, N. Y., and in New Jersey, Delaware, Maryland, the District of Columbia, Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Oklahoma, Texas, New Mexico and Arizona. In various states in other parts of the country the season closed on December 31, January 7, or January 15. This information comes from the Biological Survey of the United States Department of Agriculture, which administers the Federal migratory bird treaty act and the regulations thereunder for the protection of migratory birds.

Migratory game birds legally killed are allowed by the regulations to be possessed in any state during the open season in the state where killed, and for ten days immediately following the close of the open season.

Thus, waterfowl and other birds mentioned may not be possessed in any state after February 10. In those states where the open season closed earlier under the Federal regulations, the possession of the birds taken in those states illegal after January 10, January 17, or January 25, depending upon the closing date of the open season, but birds taken in a state where the open season continues through the month of January can be possessed in any state, if allowed by state law, until February 10.

The Biological Survey calls attention to the fact that the carcasses of migratory game birds found in storage or elsewhere after the close of these possession seasons not only may be seized, but the owner of such birds will be liable to prosecution in Federal courts.

CLEBURNE JACKETS START FOOTBALL TRAINING MONDAY

CLEBURNE, Jan. 27.—Coach Howard Parker issued his call for the opening of the spring football training season Monday afternoon and expects at least 80 prospective football players to report.

A strenuous training season will be conducted here in an effort to develop a number of players to take the place of those who are graduating this season. The spring grid training will continue until the end of school.

BABY GIRL ARRIVES

Mr. and Mrs. Clarence Reed of McKinney, Texas, are the proud parents of a dear little eight-pound girl, who arrived Monday, January 20th. The little lady has been named Wanda Lynn. Mrs. Reed will be remembered by her many friends as Miss Leora Starkes. She has been in Corsicana with her parents, Mr. and Mrs. S. M. Starkes for the past six weeks, and they are very proud of their first grandchild. All arre receiving hearty congratulations with broad smiles.

HOW often have you said, "If I only had someone to help me I could be through with my work in time to—?" Yes, in time to enjoy a whole world full of new diversions. Time would be yours for study and self-improvement, for profitable occupation, for devotion to your children and their needs, for bridge, golf—or for doing any one of hundreds of other delightful things.

Electricity creates the New Hours for these things. There is an electric appliance for practically every household task of today. If, alone, you can do your work in six hours per day, with the help of electric appliances you should be able to do it in three hours. There are three perfectly New Hours for you each day.

Then, too, there is the ease of doing things electrically. In three hours you can not only do all the work which once took six hours, but you can do it so much easier. So that when you are through with your work you will feel fresh and ready to fully enjoy the three New Hours which will be yours to do with as you will.

These New Hours are already made for you. They are right in the walls of your home. All you need to secure them is a few properly placed Service Outlets and the electric appliances which will most efficiently and economically do your work and conserve your strength.

The Texas Power & Light Company completely understands the use of electricity in the home. We will be glad to advise with you as to the placement of Service Outlets in your home, and also as to the most useful appliances for your particular needs. Then you can begin at once to enjoy the fullest use of electric service, for our terms are such that you use your appliances as you pay for them, conveniently, each month. Let the Service Outlet start bringing New Hours to you at once.

SUTTON OF LOSERS LEADING SCORER WITH 14 POINTS

OSCAR BIRD LED TRIANGLES IN SCORING SATURDAY NIGHT

BY DELMORE OLSEN

Taking the lead early in the first quarter when Bird rang a pair of field goals and a free toss, and increasing this lead throughout the contest in spite of the efforts of their opponents to pull on even terms, the Corsicana Y. M. C. A. Triangles defeated the Trinity Pharmacy Cubs of Waxahachie here Saturday night, 42-22, on the local Y. M. C. A. court.

Featuring the game with the deadly sharpshooting of both teams from the free throw line, making twenty of these gift shots count during the contest. Sutton, former Bardwell high school star, playing with the visiting quint, captured high point honors with fourteen points. Only one point back of the leader was Oscar Bird who kept his team in the lead during the first part of the game with his brilliant goal shooting.

Thad Irwin and Harold Green, forward and center of the Triangles were next in scoring honors with eleven and ten points respectively during the fray. Paul Richards, Cub forward, scored seven points for his team.

Great defensive work was displayed by Eady and Tyner, regular guards on the Trinagle team, Walters and Burrows, Cub goal tenders, during the game, with the work of Tyner and Captain Tom Eady outstanding.

In the first quarter, the Triangles playing without the services of Harold Green, amassed a lead of six points, due to the efforts of Bird with two field goals and one free toss, ably seconded by Smith with three gift tosses and Irwin with a field goal. The Trinity Pharmacy quint was able to secure four points in this period, three by Sutton and one by Walters.

The Triangles added one point more to their advantage in the second period when Green sank two field goals and Irwin one. To partly offset this, the Cubs added field goals each by Sutton and Richards, and a free toss by Walters. Score at the half: Triangles 16, Trinity Pharmacy Cubs 9.

Coming back into the fray after a ten minute rest period, both teams at once launched attacks and counter attacks on the goal, with honors even for the quarter, each team scoring thirteen points, four field goals and five free tosses. It was in this period that the Cubs made their only serious threat to overcome the lead of the Triangles, and succeeded in coming within two points of the leaders before the Triangles got busy and once more took a commanding lead as a result of the goal shooting of Irwin and Green.

In the final period, the Triangles added thirteen points to their ever increasing lead by scoring fourteen points while the Cubs were held to one lone free toss during the fourth quarter. Bird led the scoring in this quarter with eight points. Triangles 42, T. P. Cubs 22.

In the curtain raiser event, the Rice cagers snapped out of their temporary slump and won a 21-18 victory over the Y. Dragons, despite a furious last minute rally by the losing aggregation.

The box score of the Triangle-T. P. Cubs follows:

T. P. Cubs—	f.g.	f.t.	p.f.	t.p.
Sutton, f.	4	6	2	14
Richards, f.	3	1	1	7
Pruitt, f.	0	0	0	0

Tiger Reserves Win Couple of Contests During Week-End

Duplicating the feat of the Corsicana High school regulars in winning two games over the week end, the Reserves defeated the Emhouse cagers 20-16 Saturday afternoon on the local Y. court. The first victory for the Reserves was won Friday afternoon at the expense of the Rice cagers 28-17.

O. E. Dill, Reserve forward, was high point man of the contest with eight points. Allen, Emhouse center, was next with seven.

The Reserves, under the guidance of Coach Ralph Elliott, star player on the 1929 squad, have developed passing attacks and either Owen or Dill are deadly shots at the ring.

The Box Score.

Emhouse—	Fg.	Ft.	Pf.	Pts.
Tinkle, f	3	0	0	6
Turner, f	0	3	2	3
Allen, c	3	1	0	7

Negro Woman Is Electrocuted As Alabama's First

MONTGOMERY, Ala., Jan. 24.—(AP)—Silena Gilmore, negro, first woman to be electrocuted in Alabama, was put to death in the electric chair at Kilby prison today.

The woman was convicted in Jefferson county for the murder of Horace John, Birmingham restaurant operator, last June. She shot him when he requested her to leave his restaurant.

Corsicana Quints Will Play Four Games During This Week

The Corsicana High school and Y. M. C. A. Triangles will play two games during the week, one each on the local court and one game on the road. Both aggregations were victorious last week end when the Tigers smothered the Hillsboro Eagles in two games in Hillsboro and the Triangles defeated the Waxahachie Independents 42-22.

The Tigers will journey to Waco Tuesday for a game with the Waco Tigers which should prove an interesting affair. There is always considerable rivalry between the Waco and Corsicana athletic teams but the Corsicana cagers have always won games with the Brazos boys.

One of the best games of the season will likely be flashed on the Corsicana Y. M. C. A. court Saturday night when the Tigers meet the Highland Park cagers of Dallas. Highland Park is one of the best teams in North Texas, presenting a speedy aggregation.

The Triangles and Dallas Y. M. C. A. aces will meet in the first two games of a series for the Northeast Texas district Y. M. C. A. championship this week end. The first game will be played in Corsicana Friday night and the scene of histilities will be shifted to Dallas Saturday night. Both aggregations are composed of real court performers and some of the best basketball seen this season should result. A third game will be played later if it is necessary.

The winner of the Corsicana-Dallas Y. M. C. A. series will compete in the State Y. M. C. A. tournament in Dallas late in February.

There are several Y. M. C. As in the Northeast District, but Dallas and Corsicana are the only associations who have entered the basketball competition.

PIONEER RESIDENT STREETMAN DISTRICT WAS BURIED SUNDAY

Funeral services were held Sunday morning at 10 o'clock for U. F. (Lish) Roberts, aged 80 years, who died at his home at Streetman Friday afternoon at 5 o'clock. Burial was in the cemetery near his home, where he has lived many years. He is survived by his aged wife and ten children.

Mr. Roberts was born in Georgia May 4, 1850, and came to Texas when still a young man and has resided in the Winkler and Streetman communities since that time. He was married to Miss Rebecca Sweatman, 57 years ago and they have been substantial and leading residents of the southeastern section of Navarro county all the years that have followed since their marriage. Mr. Roberts was a Mason of high rank and a member of the Streetman Baptist church.

Surviving are his wife and ten children, eight sons and two daughters, and 31 grandchildren, and numerous other relatives. The sons are Ben Roberts, Evansville, Ind.; Jack Roberts, Clovis, New Mexico; Joe Roberts, New Mexico; Barkley Roberts, Hollis, Okla.; Will Roberts, Streetman; Lish Roberts, Corsicana; Arthur (Sam) Roberts, Dallas; Aubrey Roberts, Dallas, and the daughters are Mrs. O. T. Seibel, Dallas and Miss Alice Roberts, Dallas. Mrs. Mona Anderson Edens and Dick Anderson of Corsicana are niece and nephew of deceased.

Mr. Roberts has been a leader in his section of Navarro and Freestone counties for more than half a century and was known to all old-timers of the two counties as an upright, honorable and trustworthy gentleman of the Old South.

TRANSFER OF PRO ENFORCEMENT UNIT URGED BY MITCHELL

(Continued From Page 1).

service and said they would be absorbed in the office of the justice department on an equal basis with those already in service.

Many things under the bill, the attorney general said, would have to be worked out as administrative problems.

Representative Schafer, republican, Wisconsin, asked "why not put all United States attorneys under the civil service?"

Mitchell replied that the question was not pertinent to the matter under discussion, but added his department felt attorneys used for the special work should not be placed under civil service.

Seek Removal of Enforcement Head

WASHINGTON, Jan. 27.—(AP)—Immediate removal of John F. C. Herbert as prohibition administrator for Montana and Idaho was demanded in the senate today by Senator Borah, Idaho, and Wheeler, Montana, on the grounds of charges placed before them by department of justice investigators.

Wheeler accompanied his demand with a declaration that prohibition enforcement had broken down. He blamed the "politicians" and called upon the law enforcement commission to summon members of the republican national committee before it to determine "how prohibition officers are appointed."

Both Wheeler and Borah said they had been informed that the department of justice had investigated Herbert when he was prohibition administrator from Maryland and had reported "malfesance and corruption."

"If the fact be true as reported to me by a representative of the department of justice," said Borah, "this man has no business in Idaho or Montana or anywhere else outside of the penitentiary."

Wheeler said "unless the administration takes Herbert out of Montana, I will call for an investigation, and I will insist that the department of justice make public its evidence."

REMAINS OF FOURTH GOVERNOR OF TEXAS BE BURIED AUSTIN

AUSTIN, Jan. 25.—(AP)—The remains of Peter Hansborough Bell, fourth governor of Texas, and his wife, will be reinterred in the state cemetery here Wednesday after having been brought here from Little, N. C.

Funeral services will be held at the capitol, attended by Governor Dan Moody, members of the legislature, Daughter of the Republic and other notables. State Senator Thomas B. Love of Dallas will deliver the funeral oration.

Bell was born in Culpepper, Va., in 1812, coming to Texas in 1836 in time to take part in the battle of San Jacinto.

After serving as a soldier through the revolutionary era, Bell became governor of Texas in 1849. In 1853 he left the governorship to enter congress, where he served until 1857. He then married a North Carolina woman and moved to that state.

T[illegible] and A. C. Kent, of the [illegible] community, were visiting in Corsicana Friday.

TWO TROUBLESOME PROBLEMS FACING NAVAL DELEGATES

(Continued From Page 1).

two hours at the Downing street session, had been under study even before the conference began, but the proposal to straighten out the Franco-Italian question apparently developed overnight. This latter idea had not yet been reduced to writing, and it was not known whether it would be fully acceptable to Mussolini's government, although first reactions appeared hopeful.

As it stood in tentative form, the suggestion was that the five chief naval problems join in a declaration, perhaps in the preamble of a limitation treaty, saying that the sovereign privilege of possessing a navy of any size could not be abrid ged except voluntarily. This, in effect, would do away with any fixed ratio understanding such as was laid down in the Washington treaty. Then, in the body of the treaty, each power would stipulate the outside limits on its building needs between now and the conference of 1936 when the whole situation is expected to come under review again in conformity with the agreement reached at Washington.

Mediterranean Unsettled

Whether application of this general formula to the Italian situation would be supplemented by a security pact covering the Mediterranean, as had been suggested by France, remained for future determination. A spokesman for the American delegation said today there had been no discussion whether the United tSates would be willing to join such a pact in a consulting capacity.

Today's Downing street meeting of the big five was the longest yet held. The delegation heads discussed a detailed proposal for the conference program with the tonnage measurement question uppermost. The compromise plan would lay down limitations for each specific class of warship, but would defer to French views by allowing a certain percentage of total tonnage to be diverted from one class to another.

Cruiser Work Stops

Announcement of cancellation of work on thre British cruisers Surrey and Northumberland was made by the admiralty without explanation. These are the two ships on which Prime Minister MacDonald suspended work shortly before his visit to the United States last year. Absence of official comment on today's announcement was taken as further evidence of Great Britain's faith that some agreement would be reached during the negotiations.

The Surrey and Northumberland were to have been 10,000 ton vessels. The inference was that Great Britain saw the way to an agreement whereby she would need only her present strength in this largest class of cruisers, leaving the remainder of her total tonnage to be put into small ships. The understanding has been that in parity discussions with the United States the British indicated they preferred to build cruisers of about 4,300 tons rather than the bigger types as replacements.

The only available British comment was from the spokesman of the British delegation, who said the cancellation indicated a very hearty hope that the conference would do something. Work on these ships never had actually been started.

It was pointed out in other quarters that recent cruiser discussions indicated the British were much interested in the Japanese as well as American cruiser programs, particularly in view of Japan's demand for a seven to ten cruiser status. The admiralty's cancellation order, therefore, was taken as possible evidence that the British were confident Japan5s demands would be met satisfactorily on a basis which would not give her greater power in large cruisers than Great Britain already possessed.

Reports that the United States had joined forces with Japan in her demand for more cruisers were denied at the American delegation headquarters. It is understood thus for no formal discussions of this subject had been held, but the British and Japanese delegations made an appointment to meet each other this afternoon. The British also had an appointment during the day for a joint meeting with the French and Italians.

The big five meeting this morning did not complete the Agenda, but did decide that the question of tonnage measurement be taken up first at the next session of the full conference.

It also was decided to let the other subjects come up in the alphabetical order of the countries proposing them. This means that France will be able to place her compromise "global" tonnage proposal before the conference before Italy can present the somewhat different plan she favors.

During the afternoon it was announced that because of the length of the morning session the British and Japanese conference scheduled for today had been abandoned.

NAVARRO COUNTY CHAIRMAN WOULD LET BARS DOWN

C. H. DELAFOSSE SAYS BOLTERS SHOULD BE PERMITTED TO RETURN

C. H. DeLafosse, Navarro county Democratic chairman, Friday dispatched a letter to D. W. Wilcox, Georgetown, chairman of the Texas Democratic executive committee, favoring the allowing of those who bolted the Democratic party to return to the party and applying for places on the ticket as candidates provided that they declare that they are Democrats and will support the nominees of the party. Mr. DeLafosse called the attention of the Democratic chairman to the provisons in the statutes where executive committees are prohibited from denying the right to participate in a primary because of former affiliations.

Following is the letter:

Corsicana, Tex., Jan. 24, 1930.
Hon. D. W. Wilcox, Chairman
State Democratic executive Com.
Georgetown, Texas.

Dear Sir—I note that the State Democratic Executive Committee is to meet about February 1, having for one of its purposes a determination of the disposition to be made of the bolters, and especially of those who bolted and apply for a place on the ticket as candidates. I feel sure that the committee, yourself, as well as all the members, are giving this matter thorough consideration. I also have considered the matter very thoroughly and have reached the definite conclusion that no man should be kept from a place on the ticket provided he states that he is a Democrat and will support the nominees of the party. The proviso contained in Article 3107 positively prohibits the executive committee from denying to a person the right to participate because of former affiliations.

There are some things which must necessarily be left to the honor and integrity of the participant in a primary or convention and my opinion is that regardless of one's former political view or party affiliations if he states that he is a Democrat and will support the nominees of the party, has a legal right to participate in the primary of the party, either as a voter or as a candidate.

I trust that the committee will place the name of Thomas B. Love on the ticket and let the people dispose of his caso just as they did two years ago in Dallas county, and in the state.

Respectfully,
C. H. DeLAFOSSE,
Chairman Navarro County Democratic Executive Committee.

WHITE HOUSE QUICK TO DENY CHARGE ON PATRONAGE MATTER

(Continued from Page 1)

all departments "to be filled out by every employee giving a full picture of the history of his employment." This, he said, was "difficult to explain on any non-political hyothesis."

Newton replied that neither he nor the president had "ever heard of the matter until it appeared in the press."

A card index of presidential appointees and other non-civil service employes is kept at the white house as a matter of office routine, he said, "and some eight months ago, cards were sent out for the purpose of bringing this list up to date. Three hundred cards have been catalogued since that time, he added, and no civil service employe was included."

ASHES OF BRYAN'S WIDOW WILL REST ARLINGTON SOON

LOS ANGELES, Jan. 25.—(AP)—The ashes of Mrs. Mary Baird Bryan today awaited removal at an early date to Washington, D. C., where they will rest in Arlington National Cemetery besides the body of William Jennings Bryan, her husband.

In a private funeral service yesterday, relatives and invited friends assembled in the Little Church of the Flowers in Glendale and heard the words of the Commoner's essay, "Immortality," from the "Prince of Peace." They were read as a benediction over the remains of his beloved wife. Her husband's belief, expressed in a passage from the essay—"I am as sure that we shall live again as I am that we live today"—brought comfort to her in life, and it was her request that the passage be read at her funeral.

Dr. James Hamilton Lash, pastor of the First Congregational church of Hollywood, read the essay and delivered a brief eulogy.

GOVERNMENT REPORT GIVES WARNING ON OVERPRODUCTION

(Continued From Page 1).

both acreage and production had been at a comparatively high level.

Dairymen were advised to cull their herds closely and send more heifers to slaughter in order to avoid a continued increase in dairy herds in 1931 and 1932. The general situation in the dairying industry was said to be "not as bad as would appear from present butter prices."

Some Overproduction.

The report said that heavy production of grape fruit and low prices was probable and that cantaloupe prices would probably be lower this year in the early producing sections while a moderate decrease in the acreage of the intermediate and late producing sections was recommended "in order to raise prices to the level of a few years ago." Watermelon growers were advised to plant a somewhat smaller acreage.

Hog prices were expected to average at least as high as in 1929 and possibly higher, while reduction of slaughter supplies was indicated, this partially offset by a decreased demand for hog products.

WASHINGTON, Jan. 27.—(AP)—Secretary Hyde told the farmers of the nation today that "blind production' was the bane of agriculture.

Speaking over the National Broadcasting company network, the secretary closed the broadcasting of the report on the 1930 agricultural outlook with the warning that governmental farm relief measures would be useless "unless each individual farmer intelligently plans his production."

Hyde said he wanted to emphasize that in order to obtain a higher level of prices than prevailed now it appeared necessary to reduce rather than to increase 1930 production and that the problem must be met on the farm.

Lions May Sponsor Mosquito Campaign In Mexia District

MEXIA Jan. 25.—(SP)—A committee of the Mexia Lions club will propose to the club the sponsorship of a mosquito eradication campaign in Mexia, to begin with a clean-up week drive early in the spring. The committee, headed by C. E. Chambers, was appointed by the club to investigate the need for such a campaign, and it has decided after a conference with state and city health authorities to undertake the drive.

The clean-up week and mosquito control work will form one of the club's principal activities during the summer, if its recommendations are adopted. With Mr. Chambers on the committee are D. O. Tyler and C. R. Noles.

FIVE MEASURES ON PRISON SYSTEM IN HOUSE FOR ACTION

(Continued from Page 1)

the Imperial farm near Houston, and a two-unit proposal, one section to be devoted to agriculture and situated on the Ramsey and Darrington farms, and one to industrial activities on a site to be determined by a commission.

A sixth bill was placed in the house hopper by Representative Jack Keller of Dallas, who would rehibilitate existing properties and make additions to them.

The house spent most of the morning wrangling over a resolution introduced last week by Representative Graves of Erath county, expressing disapproval of the erection of any substantial building by any department without authority of the legislature, specific reference being made to the $13,400 highway department office building erected at Tyler. After the latter was stricken out, the resolution was referred to the committee on state affairs.

Education Committee Meets

Meeting scheduled for the afternoon included that of the committee on education to consider a request to Gov. Moody to submit summer appropriations to the present called session.

After the senate resolved itself into a committee of the whole it spent the rest of the morning debating whether witnesses should be subpoenaed with their expenditures paid.

Most of those who had favored relocation argued against the proposition which was offered by W. D. McFarlane of Graham, who is for concentration on lands now owned.

Senator Thomas B. Love of Dallas said he had never heard of the senate paying the expenses of anybody to argue for or against any bill and added he was not in favor of establishing such a precedent. He said the senate would be glad to hear any one interested enough to appear before it.

Time Enough Spent

Senator T. J. Holbrook of Galveston, Walter Woodward of Coleman and Margie Neal of Carthage echoed Senator Love's sentiments.

"We have spent enough time investigating," Senator Holbrook declared emphatically. "Now is the time to do something."

"It is a most peculiar thing that the 'relocating' boys suddenly have become very solicitious about the treasury," Senator Eugene Miller of Weatherford said in answer. "They did not thing about the treasury when they voted to tour the prison properties or send a commission stacked in favor of relocation all over the United States."

Senator Will Martin of Hillsboro said that several persons who could shed some light on the prison matter probably did not have enough money to come to Austin and that the senate would be deprived of their information unless it paid their expenses.

Legislature Back In Capital Monday

AUSTIN, Jan. 27.—(AP)—The Texas legislature was back on the job today, ready to take up consideration of subjects which Gov. Moody named in calling the special session.

Chief interest centered on legislation directed at reformation and cnocentration of the Texas penitentiary system.

Having completed a tour and inspection of the prison properties and come in personal contact with living conditions of the prisoners, the legislators had a better picture of the system as they entered the work of reforming it.

A sixth bill proposing reorganizing and concentrating was written by Representative Jack Keller of Dallas today. Five others already were pending.

Chief disagreement was over sites for the new centralized system. The majority of the prison centralization commission recommendation for a site near Austin obtained the supnort of Governor Moody. Other bills called for concentration on the Imperial farm near Houston and rehabilitation of the present wells at Huntsville.

Wills Point Defeats Leesburg Hi School Quint Couple Games

WILLS POINT, Jan. 27.—(Spl).—Meeting their first defeat of the season the boys' quintette from the Leesburg High school went down in defeat Friday night before Melvin Hook's Tigers and stayed over Saturday night for a repetition of the drubbing. The score Friday night was 36 to 27 and Saturday night 22 to 15.

The strength of the visitors was in their long throws and accurate passes, but this was more than offset by the fast floor work and good guarding of the Tigers. The game was a fast one each night and at no time did the fans feel that the game was dragging.

HIGHWAY MATTERS MAIN BUSINESS AT MEETING OF COURT

FUNDS ORDERED PLACED IN ESCROW FOR CONSTRUCTION STATE HIGHWAYS

Numerous discussions of right-of-way and other matters concerning the road situation in Consolidated Road District No. 1 were heard at the regular bi-monthly meeting of the Navarro county commissioners court Monday morning. Minutes of previous meetings were read and approved. All members of the court were present. It was stated that bids for the sale of $1,366,000 in bonds unsold in the district would be opened at the afternoon session of the court.

An order was passed authorizing the payment of accounts for right-of-way for Highway 139 in the southern part of Corsicana as deeds were executed and details worked out. This right-of-way is being secured by Jack Megarity, commissioner, and Charles G. Jester.

Says Road Too Narrow.

A letter was read from J. P. Bryson, complaining about the narrow road on the Corsicana-Corbet lateral road near the Gorman store at the end of the Boulevard, stating that the road should be widened. Commissioner Megarity stated that the road should be widened.

An application of W. H. Johnson to place a cold drink and cigar stand in the lobby of the Navarro county courthouse was made but no action was taken on the proposal.

Sidney K. Brietz of the Whiteselle Brick and Lumber company appeaed before the court with reference to the proposed installation of metal weather strips about the doors and windows of the court house, but nothing definite was decided by the court.

Several tax matters were taken up.

The applicaton of E. F. (Mose) Wells, tax assessor, for the appointment of the following deputies was granted:

W. D. Clark, assessment of taxes in beat 5, Blooming Grove and Frost communities, at 10c per $1,000 assessment and 2 1-2c per poll; E. H. Ross, beat 3, Kerens, at the same rate; W. L. Garrett, Wortham, $5 per day inspecting the oil properties in the county, and $125 per month for the actual assessment of the oil properties.

Letters from the State highway department were read. It was brought out that $84,000 was desired to be placed in escrow for the state department as the necessary part in the construction of the four miles of road through Corsicana on Highway 75. It was pointed out by the State highway department that the above-mentioned $84,600 would be applied on other parts of the highway and that the state highway department would construct the four miles 100 percent through the town to comply with the bond issue petition.

The court authorized County Judge Nash to enter the escrow agreement. The placing of approximately $41,000 in escrow for the 3.99 miles of highway 139 from Corsicana to the Three-Way Filling Station was authorized. It was brought out that the contract was awarded for approximately $36,000 on the unit price basis, but that the additional was desired to take care of contingencies, etc.

It was stated that the bonds advertised for sale would be opened during the afternoon session.

AGED CORSICANA WOMAN BE SENT TO KEMP FOR BURIAL

Mrs. Mollie Haney, aged 77, died about 11 o'clock Saturday morning at the home of her daughter, Mrs. Wilbur Yielding, 115 Rob avenue. The body will be shipped to Kemp Sunday, and will be interred in the Pyle Prairie cemetery.

She is survived by two sons, Hugh Haney of Corsicana, and E. B. Haney of Kemp; four daughters, Mrs. Yielding, Mrs. Leona Owen of Oklahoma City, Mrs. Charles Carr of Corsicana, Mrs. Sam Jernigan of Corsicana; two sisters, Mrs. W. W. Bradley of Waco, and Mrs. Richard Adkin of San Antonio.

Corley-McMahon Funeral Home is arranging the funeral.

HOME DESTROYED BY FLAMES EARLY MONDAY MORNING

Fire of undertermined origion destroyed the home of E. T. DeWitt, 810 North Thirteenth street, about 4:30 Monday morning. Loss was estimated at $2750 by Fire Chief Elmer Keith.

The house was occupied by J. A. Crook. Loss on the house was estimated at $1250 but the amount of insurance was unknown; loss on the furnishings was estimated at $1500, with $1,000 insurance.

Firemen encountered considerable difficulty in reaching the blaze because of the extremely heavy condition of the unpaved street.

FOR CONSTABLE PRECINCT NO. 1.

In another place in today's paper will be found the formal announcement of C. P. Brooks as a candidate for the office of constable of precinct No. 1, Navarro county, subject to the action of the democratic primaries.

Two years ago Mr. Brooks made the race for this office being in the run-off and was defeated by a small majority. In making his announcement for the office again Mr. Brooks wants to especially express his appreciation to those supporting him two years ago, and to respectfully ask their support again. Mr. Brooks wishes to assure the voters of precinct No. 1 that should he be elected he will conduct the office in an efficient and satisfactory manner and give every effort to the enforcement of the laws. Mr. Brooks has lived in this precinct or over twenty years where he is well and favorably known with many loyal friends, all of whom feel that he not only deserves the office but will make the county a very dependable and valuable officer.

Jester Baptists to Seek Subscriptions Semi-Weekly Light

The First Baptist church of Jester has decided to take part in the securing of subscriptions to the Semi-Weekly Morning Light again this year and no doubt will again secure the number of subscribers necessary to give them cash money for church work. As before stated, the offer is that for every 50 paid in advance subscribers to the Light turned in by any church or civic organization, $25 in cash will be given by the management of the paper for the work of such organization securing the subscribers.

Emhouse P.T.A. in Regular Session on Thursday Afternoon

EMHOUSE, Jan. 24.—(Spl)—The Parent-Teacher association met in the regular session, Thursday. The meeting was opened by the President, Mrs. C. J. DeLafosse. A short business session was called to dispose of some unfinished business. Thank you cards were presented to the P. T. A. for the nice song books donated to the school by the association. The cards were prepared by the fourth grade.

An interesting program followed the business session, consisting of the following numbers:

Miss Pauline Elkins, piano solo, "The Shepherd Boy."

Miss Annie Rose Boyd and Mrs. J. A. Boyd, duet: "Dear Mother of Mine."

The roll call of members was responded to with cute sayings of children, forming quite an interesting part of the program.

At the close of the program, a refreshment plate was served by the teachers, consisting of chicken sandwiches, pimento sandwiches, olives, potato chips and cake. A green and white color scheme was used in the decorations.

REPORTER.

H. B. BOYD STRUCK BY AUTOMOBILE AND SERIOUSLY INJURED

H. B. Boyd, 52, who resides at 1344 North Beaton street, was seriously injured Friday morning about 10 o'clock when he was struck by an automobile driven by a Mr. Brown. He was reported to be resting fairly well at the Navarro Clinic Friday afternoon.

His left leg was broken in two places and several ribs were reported broken.

It was stated that Mr. Boyd had started to cross the street near his home and was struck by the automobile when he stepped from behind a wagon, the accident being reported unavoidable.

The injured man was rushed to the hospital in the Sutherland invalid coach.

CORSICANA AWARDED TENNIS TOURNAMENT Y. M. C. A. DISTRICT

Corsicana was awarded the tennis tournament to be held August 2nd, at the annual meeting of the northeast district Y. M. C. A. physicial education committee held in Dallas Friday afternoon. Boyce Martin, advertising manager of the Corsicana Daily Sun, and chairman of the local Y physical education committee, was named chairman of the committee for the coming year.

It was decided to determine the district championship in basketball by a three game series between the Corsicana and Dallas teams, the initial game to be played here, Friday, January 31. The following evening the Dallas team will be host to the Corsicana team, and if a third game is needed, it will be played on the Highland Park, Dallas, court, February 11th.

Robert Cooksey has been chairman for the committee the past two years. C. F. Broughton, physical director of the Corsicana Y. M. C. A. attended the meeting in Dallas Friday.

COL. JUSTISS IS HONORED BY HOUSE ON TWO COMMITTEES

According to the House Journal of the Texas Legislature, the Navarro county representative, Col. A. N. Justiss, is receiving his share of honors in the opening days of the fourth called session of the forty-firt legislature. The following excerpts from the House Journal are self-explanatory:

"In accordance with provision of H. C. R. No. 3, providing for a joint session to hear an address by Hon. Dan Moody, governor, the honarable senators, escorted by A. W. Holt, sergeant-at-arms of the senate, appeared at the bar of the house and being announced, occupied seats prepared for them along the aisle.

"Lieutenant Governor Barry Miller, being invited, occupied a seat on the speaker's stand.

The following members were appointed to escort Hon. Dan Moody to the Speaker's stand:

Messrs. Justiss, Warwick, Hopkins, Stevenson and Baldwin.

"The committee having performed their duty, Speaker Barron presented Governor Moody.

'Hon. Dan Moody then addressed the assemblage.

After giving in full a communication from the secretary of state, Jane Y. McCallum, giving the list of members of the house named at special elections the following appeared in the Journal:

Members of the house of representatives of the forty-first legislature, elected at special elections:

Five—J. A. Riley; 60—Sam Houston Allred; 94—Frank T. West; 100—S. Bowden Farrar Pl. 1; 124—Arthur C. Johnson.

In acordance with the above communication, the speaker appointed the following committee to escort the new members to the speaker's sand:

Messrs. Ray, Coltrin, Sanders, DeWolfe, Young, Justiss, Metcalfe, Adkins, Long of Wichita and Johnson of Smith.

The committee having performed the duty, the speaker administered the constitutional oath of office to the new members as certified to in the above communication from the secretary of state.

Court House News

District Court.

No new cases have been filed in the office of the district clerk since Saturday, January 18, an inspection of the records showed Saturday morning. The severe weather and impassable roads are credited with much of the clump.

Sheriff's Office

Deputy Sheriff J. M. Westbrook returned F. A. Kelly from Seguin, Texas, Friday night, and lodged him in the Navarro county jail. He was recently indicted for rape and incest by the grand jury. It was thought probable that an application would be made for bond sometime Saturday.

Warranty Deeds.

Earle M. McClung, et ux, to W. F. Smith, et ux, part of lots 3 and 4, block 61, Kerens, Texas, $4,000.

Marriage Licenses

Raymond Hixson and Rosa Bell Speed.

Willie James Gray and Georgia Brown.

SICK AND CONVALESCENT.

C. E. Hoover of Italy, Texas, underwent an appendicitis operation at the Navarro County Hospital Sunday afternoon.

Mrs. B. W. Hales was able to leave the Navarro County Hospital Sunday.

Clayton Yarbrough was able to leave the Corsicana Hospital and Clinic Monday morning.

Mrs. Ernest Breithaupt of Powell received medical treatment at the Corsicana Hospital and Clinic Sunday evening.

J. Larrimore is in the Corsicana Hospital and Clinic Monday for medical treatment.

CORSICANA, TEX., JAN. 28, 1930.

HEALTH CONDITIONS IN THE UNITED STATES.

A summary of health conditions in the United States during the past fiscal year is included in a report recently submitted to Congress by Surgeon General H. S. Cumming of the Public Health Service. This report indicates that bubonic plague was reported in California and the Island of Hawaii during the fiscal year.

Preliminary reports show that the birth rate in the United States birth registration area for the calendar year 1928 was lower than in 1927, while the death rate was higher. The figures for births were: 1927, 20.7 per 1,000, 1928, 19.7 per 1,000; for deaths, 1927, 11.4 per 1,000, 1928, 12.1 per 1,000. The infant mortality rate for 1928, 67.9 per 1,000 birth, was higher than in 1927, 64.6 per 1,000 births.

The outbreak of influenza, which began in the spring of 1928, decreased as usual during the summer months and flared up into epidemic proportions during the fall of 1928, was responsible for much, if not all, of the increase in the death rate for the calendar year 1928. In the fall the epidemic was first reported on the Pacific Coast and then spread rapidly eastward, reaching its peak for the country as a whole about the first of the year 1929.

The disease in many parts of the country was so mild that physicians hesitated to report it as influenza and many cases were considered to be merely severe colds and were not seen by physicians. However, the general death rate rose far above the normal during the epidemic, which did not continue for many weeks in any one place.

Surveys conducted by the Public Health Service in certain States concerning the influenza epidemic of 1928-29 showed that nearly 15 per cent of the population canvassed in various localities gave a history of having suffered attacks of influenza or grippe, while 0.47 per cent gave a history of pneumonia and an additional 14 per cent reported colds which may or may not have been directly related to the epidemic.

During the calendar year 1928, 38,000 cases of smallpox were reported in the United States; in 1927, 35,000 were reported. It seems strange that year after year more cases of smallpox are reported in the United States than in any other country of the world except British India, yet this disease can be controlled by vaccination and revaccination and with the co-operation of the public could be stamped out in the course of a few years.

More cases of cerebrospinal meningigtis were reported during 1928 than have been reported since 1918. This disease appears to increase and decrease in swells of several years' duration and for the last five years it has been increasing. The record for the calendar year 1928 shows a new low death rate for typhoid fever. This disease was responsible for 34 deaths per 100,000 population at the beginning of the present century. The mortality has decreased until in 1928, 43 States reported only 5,425 deaths, giving a death rate of 4.8 per 100,000.. This reduction of 86 per cent in the death rate from typhoid fever has been brought about largely through the practical application of the principles of modern sanitary science. Health officers and others interested in sanitation who have had a part in this work may well be proud of the results accomplished.

Tuberculosis, which has been decreasing since the beginning of the century when comparable annual records of deaths were first published, showed during the year 1928, the lowest general death rate ever recorded by the Public Health Service for that disease. The death rate for 1928 was 77.5 per 100,000 population. In 1900 in the death registration area the death rate from tuberculosis was more than 200 per 100,000.

The number of deaths from pellagra in 43 states increased from 4,794 in 1926 to 6,652 in 1928. The death rates range for 1928 from 50 per 100,000 in South Carolina and 42 in Mississippi to less than one-tenth of one per 100,000 in several States. The disease is more prevalent in rural districts than it is in the cities and Southern States have higher rates than Northern States.

Incomplete reports show that undulant fever is much more prevalent in the United States than had been realized. Reports from many sources, some of them not official, show that there were at least 649 recognized cases of undulant fever in the United States in 1928.

Four hundred and eighty cases of tularaemia with 8 deaths were officially reported to the Public Health Service for the year 1928. Many cases of this disease are not reported.

Typhus fever is another disease for which the reports are incomplete. The mild form of this disease (sometimes called Brill's disease) was prevalent during 1928, especially in the Southwestern States. One hundred and forty three cases, with 12 deaths, were reported to the Public Health Service.

BUILDING ROADS.

No more significant fact and welcome news has come out of Asia in years than the report that the road mileage on that continent increased one and one half times last year. Roads mean civilization, contact with the outside world and a broadened outlook. They mean that in civilized America as well as in isolated and unknown Central Asia.

Department of commerce figures give the world's road mileage as 3,016,281, of which 38.7 per cent is in the United States. Of the 1,200,000 miles of new road constructed last year the United States built 152,662, Asia 595,999 and Africa 57,000. While mentioning the isolated spots where road construction is in progress it is well to remind our readers that concrete highways are also being built in Navarro county, Texas.

There is a vast difference between road construction in Asia and Africa and road construction in the United States. In those undeveloped countries primitive roads are unwinding where there were no roads before. Vast areas were isolated for lack of roads connecting them with the outside world. Road construction in the United States today means paving, widening, straightening, leveling and shortening old highways and parallel routes, but relatively few new highways opening up unsettled territory.

America is as far ahead of Asia in highway construction as a fifty foot concrete speedway is ahead of a one way course created by plowing the earth from two gutters to the high crown between them to be dusty in summer, muddy when it rains and impassable in winter. The automobile took Americans out of the mud. Transportation is just taking Asia into it.

The 167,000 miles of hard-surfaced roads and hundreds of thousands of miles of other improved highways in the United States represents a great amount of wealth expended on them and produced by them.

All the public utilities serving Corsicana gave excellent service during the unusually severe weather and are to be congratulated. They were operating under great difficulties and spared no effort or expense to keep the service unbroken.

If his short story seems fresh and charming and original, it may be one of the 217 he wrote before he had one accepted.

We understand that the 8:15 Up elevator in one of the higher new skyscrapers in New York will leave in two sections.

AN UNSEATED DELEGATE

RIGHTS ARE FUNNY THINGS.

The supreme court of Pennsylvania has ruled that a signal light at a street intersection indicating safe passage to the pedestrian is a guarantee upon which he may rely, relieving him of any other obligation to safeguard himself. If the state tribunal meant a guarantee of the pedestrian's right of way, it was correct; if it meant a guarantee against personal injury or worse, it betrayed astonishing ignorance of the ways of motor traffic.

Equally wrong was the lower court when it held that a green or "go" signal, while inviting the pedestrian to cross, did not absolve him of the duty of assuring himself that vehicles were obeying it. It places no such duty upon the pedestrian for collection of damages for injuries received because of too great faith in the efficacy of traffic lights, but the duty remains if the pedestrian values life and limb.

Neither, as the appellate court holds, is the man on foot justified in assuming that obedience to municipally installed signals will be enforced. If all drivers were alert, careful and obedient to the rules of safety, there would be no need for traffic lights. It is the pedestrian who assumes that the car or truck will stop who wakes up in the surgical ward or never wakes up at all.

Of course the pedestrian has the right to expect the driver to observe the red, and so has the driver a right to expect the pedestrian to observe the "stop" sign. And yet, judging from traffic casualties, even that is expecting too much.

The courts have established the superior rights of the pedestrian, but that detracts not a whit from the truth of the apocryphal epitaph:

Here lies buried William Gray,
Who died defending his right of way.
He was right—dead right—as he sped along,
But just as dead as if he were wrong.

We wouldnt care about being the drum major in a college band: It would be enough just to feel like he looks.

Best wishes for President Hoover should include issues that can be forgotten after being referred to a commission..

American parents once raised their sons to be presidents. Now they raise them to be high-tariff lobbyists.

Health hint: Never make a girl mad enough to tell the truth.

WHAT'S AHEAD?

Nothing is more familiar in discussions of contemporary finance and economic conditions than sudden alternations of hopefulness and despondency. Late in 1929 the old misgivings reasserted themselves and belief in "trade reaction" began to prevail. But with the coming of the new year the doubts and qualifications with which predictions of the preceding weeks had been accompanied seemed to be abandoned..

British banking and business men were talking at the year-end of the return of good times and active trade that was certain to come, but a return of despondency followed some unfavorable trade reports. In France an industrial crisis came just when the nation thought its economic ills had all been cured. Germany was on the crest of a wave of enthusiasm regarding the country's swift economic recovery when she grew anxious over meeting early payments on her large foreign debt.

In the United States the only question in the people's mind is whether 1930 will measure up to the exceptionally high prosperity of 1929. But the world's economic condition of the moment should be measured by comparison with the progress made at a corresponding distance of time from other devastating wars.

The first impressive contrast is in the history of this country. The United States recovered from the ill effects of the World War in less than five years. Ten years after the Civil War the country reached the zenith of the commercial crisis brought on by the conflict.

An equally striking contrast is the evidence of the underlying wealth in communities which were lately discussed as ruined by the war. Once financial confidence was restored their reaccumulation of capital was amazing.

In spite of all they can do with a pie, we will say for restauranteurs that they never have tried to get three halves from one grapefruit.

While thoughtful citizens are pondering the causes of prison riots, two yodelers are sent to jail in Portland, Oregon.

We suppose for a while Senator Grundy will find it a little strange, arguing with people whom he has been telling heretofore.

The traffic survey is in on a local New Year's party of the younger set, and shows 11 couples sitting on a busy stairway.

It has been so long since it was said before, it may sound new: A hostess is known by the company that comes.

PIONEER RESIDENT DAWSON COMMUNITY BURIED WEDNESDAY

DAWSON, Jan. 24.—(SP)—John T. Mitchell, aged 77, died at the home of his daughter, Mrs. Minnie Riddlehoover, near here, Tuesday and the funeral was held Wednesday afternoon with burial in the Dawson cemetery.

He was born in Georgia, but had resided in the Dawson vicinity for fifty-three years.

Surviving are his wife, three sons J. D., H. W., and C. D. Michell, and seven daughters, Mrs. Minnie Riddlehoover, Mrs. Maude Bankston, Mrs Beulah Cry, Mrs. Mry Horn, Mrs. Gonia Bankston, Mrs. Beatrice House and Mrs. Kate Madera.

Van Zandt Roads Almost Impassable Following Thaw

WILLS POINT, Jan. 24.—(Spl).—Following two days of sunshine the ice and snow began melting here about noon Thursday and rural roads became practically impassable for automobiles. Farmers who had driven from home on frozen roads found it very difficult to make the return trip after the ground had thawed. Plumbers are working overtime and many families will be out of water for several days on account of bursted water pipes.

Prosperity Follows The Cow, Sow and Hen

Farmers in Barry Community are selling each month Milk, Cream, Chickens and Eggs amounting to approximately $2,000.00 through a co-operative plan which does not require the time for them to go to market.

Other communities in Navarro county could well afford to make such an arrangement in order to add to their income without loss of the farmers time.

of Navarro County and Central Texas

HERE IS THE OPPORTUNITY TO MAKE SOME QUICK AND EASY MONEY FOR YOUR CHURCH, SCHOOL,CLUB OR SOCIETY.

Here Is How It Can Be Done

FOR EVERY FIFTY YEARLY PAID IN ADVANCE SUBSCRIPTIONS, EITHER NEW OR RENEWAL, TO THE SEMI-WEEKLY MORNING LIGHT WE WILL GIVE $25.00 IN MONEY TO BE USED AS YOU SEE FIT.
THERE WILL BE NO LIMIT TO THE NUMBER OF SUBSCRIPTIONS YOU GET, THE MORE THE BETTER.
THIS EXTRAORDINARY OFFER WILL LAST UNTIL MAY

It's Bigger and Better Than Ever

The Semi-Weekly Morning Light

The Rural Edition of The Daily Sun

The Power House of Information

IS BIGGER AND BETTER THAN EVER, ENJOYING ALL THE NEWS AND EDUCATIONAL; INSTRUCTIVE AND INTERESTING FEATURES OF THE DAILY SUN.

The Light this year is better than it has ever been, and will continue to get better for it is filling a demand of the intelligent residents of the smaller towns, and rural districts of this section of Central Texas.

The Light is brand new from cover to cover with new faces of type, more news matter from the world, nation, state, county and immediate community.

There has also been added a comic page, stock market page; county news page and the ,money - saving news in the advertisements of a progressive lot of merchants.

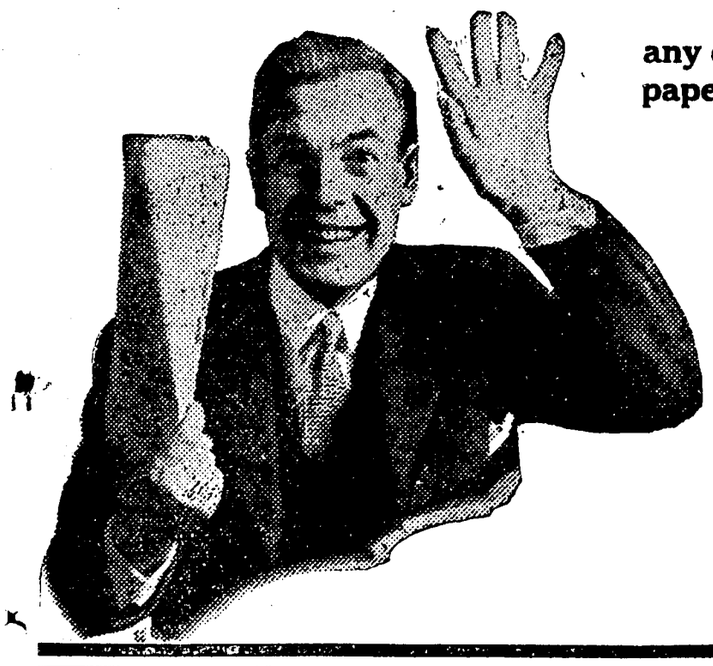

Then, too, the print on the Light is as good as new printing presses can give, which makes it easy to read and good for the eyes.

Space will not permit giving in detail all of the many attractive features of the Light.

All that we ask is that you compare the Semi-Weekly Morning Light with any other paper you want and we will leave the matter of which is the best paper to your intelligence.

The Light is the best Semi-Weekly Newspaper in Texas Today!.

The Only Semi-Weekly Paper Published in Central Texas.

LEATHER TARIFF REJECTED FRIDAY BY SENATE VOTE

WASHINGTON, Jan. 24.—(AP)—After declining twice to approve tariffs on hides above the 10 per cent ad valorem duty carried in the Hawley-Smoot bill the senate today voted to keep hides, leather and shoes on the free list.

Senator Borah, of Idaho, a leader of the western republican independents, who supported the proposed increased rate on hides moved to eliminate all tariffs on hides, leather and shoes after the hide increase was denied. The proposal carried, 46 to 28.

The westerners, who had fought for a higher rate on hides, turned against any duties for hides, leather and shoes after their defeat.

WASHINGTON, Jan. 24.—(AP)—The senate today rejected the Oddie proposal to increase the tariff on hides above the 10 per cent advalorem rate carried in the Hawley Smoot bill. Hides are now on the free list. The vote was 39 to 31.

The amendment offered by Senator Oddie, Republican, Nevada, would have provided specific rates of five cents a pound on green hides and nine cents on cured hides, an estimated protection three or more times greater than that provided by the house and senate finance committee measurs.

Pending further action the 10 per cent ad valorem rate on hides stays in the bill.

Senator Oddie then offered a modified amendment to provide rates of four cents a pound on green and eight cents a pound on dried hides and demanded a record vote.

The modified Oddie amendment also was voted down.

The vote against the modified amendment was 37 to 30.

How They Voted.

The roll call on the first Oddie amendment follows:

For:

Republicans—Borah, Brookhart, Capper, Frazier, Howell, Jones, McMaster, McNary, Norbeck, Norris, Nye, Oddie, Phipps, Pine, Robison, Schall, Steiwer, Thomas of Idaho, and Watson; 19.

Democrats —Ashurst, Bratton, Broussard, Connally, Dill, Fletcher, Kendrick, McKellar, Ransdell, Sheppard and Thomas of Oklahoma; 11.

Farmer Labor—Shipstead; 1.

Total 31.

Against:

Republicans —Baird, Bingham, Blaine, Couzens, Fess, Gillett, Goldsborough, Greene, Grundy, Hale, Hatfield, Hebert, Johnson, Kean, Keyes, LaFollette, Metcalf, Moses, Townsend, Vandenberg and Walcott; 21.

Democrats — Barkley, Caraway, Copeland, George, Glass, Harris, Harrison, Hawes, Heflin, Overman, Simmons, Smith, Steck, Swanson, Trammell, Tydings, Walsh of Massachusetts, and Walsh of Montana; 18.

Total 39.

Road Bill Favored.

WASHINGTON, Jan. 24.—(AP)—The house bill proposing an increase in the annual federal appropriation for road building from $75,000,000 to $125,000,000 for the next three years was reported favorably to the senate today by its post roads committee.

CORSICANA COUPLE TO PLACE DANDRUFF CURE ON MARKET

Although the formula has been prepared for twenty-five years for use by the family and friends, only until recently has the dandruff remedy, trademarked "Dander Go," been placed on the marked by Mr. and Mrs. Sam Brooks. They formed the Dander Go company of Corsicana, and the firm in the near future expects to launch an aggressive campaign to place the product in drug stores and beauty parlors throughout the state.

The beauty parlors are most enthusiastic about the new dandruff remedy, it was stated by Mr. Brooks, because the fluid does not contain alcohol which tends to ruin permanent waves.

Put up in handy sized bottles, with a neat label which states the remedy is sold on a money back guarantee, the company manufacturing it is ready to enter into the commercial world, and will let the product speak for itself on it's quality and living up to the advertisement of the product, Mr. Brooks said.

Dawson Man's Leg Was Amputated

DAWSON, Jan. 24.—(SP)—Jennings Toten, who has been in a Waco hospital for some time with a trouble in his foot, underwent an operation Tuesday and the leg was amputated just below the knee.

Mr. Toten has been in a serious condition for some time. He resides in the Brushy Hill community.

FIRST WITNESS IN TRIAL FORMER JUDGE TELLS OF KILLING

(Continued From Page 1.)

"Yes, sir."

He said Brady came by his office "that morning" after 1:30 p. m., and he and Brady went together to a football game.

McNaughton testified Brady had been with Miss Highsmith drinking on the night of the killing and that he heard ascream and rushed outside to find Brady standing over the wounded girl, a knife in his hand.

Found Girl Dying

McNaughon said he, Frank Graham, Jr., and Miss Highsmith had returned to the McNaughton apartment where Brady had been ejected earlier in the evening and found Brady there again.

McNaughton went into the house to telephone, heard a scream and ran outside where the girl lay dying. Graham was there also, he testified.

The three had returned to the apartment for a portable phonograph, he said. They had been visiting at the home of a Mrs. Martin.

Miss Highsmith lived in the same house where the McNaughtons lived.

"Dr. McClanahan" (A. C. McClanahan) was with them, he continued. Brady came to the apartment of himself and his wife that evening, he said. Miss Highsmith was there, he went on, and Mrs. L. J. Nachtrab came in.

Brady left the apartment around 10 o'clock that night, he said.

Between about 8 o'clock and 10, he added, "we all sat around, pro and con discussed and had a few drinks."

"Under what circumstances did Brady leave?"

Brady Put Out

"Well, my wife put him out."

Brady, while this was going on was sitting with half closed eyes. He took a drink of water.

"My wife said Brady put his muddy feet on the bed and cursed," McNaughton continued.

He said he went down stairs with Brady.

"Mr. Graham," (Frank Graham, Jr.), was there, he said.

Then he said, "We" (Graham, Miss Highsmith, himself, Mrs. McNaughton and Mrs. Nachtrab) went to the house of a Mrs. Martin.

McNaughton, Graham and Miss Highsmith came back to the McNaughton apartment to get a portable phonograph.

Brady was there, again, he said.

"I went in to phone and heard a scream. I rushed outside and Miss Highsmith was lying on the ground."

"Judge Brady was leaning over her. I first grasped Judge Brady and then I touched her and felt blood.

"I reached up then, and I think I said something to Graham, who was standing there."

Brooks showed him a knife about seven inches long.

McNaughon said that was the knife, or "one like it."

COUR ROOM, Austin, Jan. 27.—(AP)—Two lawyers, one for the defense and one for the prosecution, came to blows today as the hour for taking testimony in the John Brady murder trial was reached.

Dayton Moses of Fort Worth, who had been ill and had not been expected to appear today, struck Roy Archer, county attorney, after Archer, he asserted, had made a charge against his integrity. Archer then knocked Moses to the floor.

The fight occurred just before court was opened at 10 a. m., and was over so quickly those in the back of the crowded old room did not know until later that there had been a difficulty.

Archer insisted Moses walked up to him and began abusing him. Neither was hurt, and each insisted he was right.

Brady, former eminent Texas jurist, came in just too late to see the fight.

He looked as poised and unmoved as usual, and when he strolled into the court room the sleep appeared still to be in his eyes.

Recess Is Taken

The session itself was productive of little, for after witnesses were sworn a recess to give counsel time to talk to the scores who will testify was ordered.

A. G. B. Highsmith of Baytown, father of Miss Lehlia Highsmith, the young stenographer Brady is on trial for killing, issued a statement saying that he alone was responsible for the dismissal of special prosecution in this case. He wanted the state's representatives only, he said.

Henry Brooks, 26-year-old district attorney, wanted to go to bat this morning, but the defense attorneys insisted they had to have a few hours to talk to witnesses. They asked Frank Graham, Jr., and other "ace" prosecution witnesses to remain in the court room for seperate conferences.

Seven Witnesses.

The defense especially wanted to talk to these seven state witnesses.

Graham, who escorted Miss Highsmith home on the night she was killed.

Mr. and Mrs. R. B. Crider, operators of the roomging house where a long knife was found in her body.

F. R. McNaughton, resident of the house, who told officers he took the knife from Brady on that night—last November.

Mrs. L. J. Nachtrab, also a roomer there.

Odie Green, said to have been an eye witness.

O. D. Cummings, connection unknown.

Of these seven only one, Cummings, was there to talk to the Brady lawyers after the recess.

Eager Crowds Storm Ancient Court House

COURT ROOM, Austin, Jan. 27.—(AP)—Crowds eager to hear testimoney in John W. Brady's murdertrial literally took possession of this dingy old court house today. A half hour before time for the court session to start there was an overflow on al stairways, and the corridors were packed.

It was difficult to get from the district clerk's office, a few feet away, into the court room.

As the lawyers gathered it was said that Dayton Moses of Fort Worth member of defense counsel, would not appeaar. He was ill with influenza and had taken a turn for the worse yesterday.

Mr. Moses appeared just before 10 o'clock, however, carrying a brief case. Another defense lawyer, Low Curtis of Belton, Brady's childhood friend, was on hand, too. Heretofore, he had remained most of the time in his hotel room preparing certain phases of the defense.

Brady came in with the jailer at 10 a. m. His eyes looked sleepy, but his face was expressionless.

Archer and Moses Fight

Just before the session began, Moses and County Attorney Roy Archer had a fight in the court room. Moses was knocked to the floor. There was confusion, but the affair was over before most of those in the court room knew it had happened.

E. A. Berry of Houston, chief of the defense, asserted that Archer had made unflattering remarks about Moses. Archer declared he did not know what Moses was angry about and that he struck the Fort Worth lawyer only after the latter had hit him. Neither was hurt.

Just about this time, A. G. B. Highsmith, of Baytown, father of Miss Lehlia Highsmith, Brady's alleged victim, issued a statement saying it was at his suggetion and his alone that special prosecutors in the case were dismissed some time ago.

Pleads "Not Guilty"

The excitement, such as there was, had died down, and Judge J. D. Moore appeared on the bench. Young District Attorney Henry brooks, then read the indictment to the jury and Berry answered for Brady in a slow, loud voice, "not guilty."

Both sides declined to invoke the rule on witnesses and the latter then were sworn as a body.

Berry then requested a recess until 2 p. m. He said they needed to talk to the witnesses, needing esnecially "full, frank" statements from the state witnesses. Berry then reconsidered and invoked the rule, so the witnesses were instructed that each must stay out of the court room until called.

Berry announced right off that he wanted the court to instruct the witnesses to meet defense counsel at a hotel.

Wants to Have It Out

Brooks didn't like this and wanted to retire the jury "while we have things out here and now."

Judge Moore then discharged the jury until 2 p. m.

Brooks, still looking rather impatient, asked that the court instruct the witnesses that they "may" talk to counsel, but don't have to. "I now want to announce," Brooks ended, "that the state is ready to start putting on proof at 11 oclock."

Berry said a recess until 11 was not long enough. Brooks renewed his insistence that the witnesses be told they needn't talk to the lawyers if they didn't care to. Judge Moore told them and recessed court until 2 p. m.

Members of Counsel In Personal Clash

COURT ROOM, Austin, Jan. 27.—(AP)—County Attorney Roy Archer and Dayton Moses of Fort Worth, defense lawyer in the John W. Brady murder trial, had a fist fight in the court room today.

Archer said he hit Moses after the lawyer had struck at him. Neither was injured.

The fight occurred just before the morning session got under way.

E. A. Berry of Houston, chief of defense counsel, asserted Archer had made statements derogatory to Moses and that the latter on returning to the court room after an absence of two or three days, took the county attorney to task for it.

Archer declared Moses came up to him and began "abusing" him and he did not retaliate until Moses had repeated his charges.

Debating Contest Plans Be Discussed At Saturday Meeting

A meeting of Navarro County University of Texas Interscholastic League members interested in debating has been called for Saturday morning at 10 oclock in the office of the county superintendent, according to an announcement made Moday morning by J. C. R. Sanders, superintendent of the Rice public schools and director of debate.

"Due to the change in rules governing debate it is essential that preliminaries be run off before the regular county meet; it is important, therefore, that all schols interested in debate send a representative to the meeting, for a schedule will be made at that time," the announcement stated.

EIELSON PLANE FOUND DEMOLISHED; BODIES MISSING

(Continued From Page 1)

with parachutes was the principal basis for their hope. Provisions in the plane were untouched, a circumstance which apparently confirmed the belief that Borland and Eielson were killed.

First news of discovery of the plane was received in a radio message to the Seattle Times yesterday from Marion Swenson, 17-year-old daughter of Olaf Swenson, owner of the Nanuk and head of the trading company which bears his name. Miss Swenson, Seattle high school student, has been marooned on the Nanuk since last Autumn.

The two-month search for Eielson and Borland was an epic of heroism and patience. A large number of men, dog teams and planes had searched for several months for the men under the most adverse weather conditions. Russian trappers and aviators were ordered by the Soviet government to join in the great hunt.

FORMER NAVARRO COUNTY MAN DIED AT RULE RECENTLY

J. M. Bett, age 71 years and 9 days, died at his home in Rule recently. He was born in Loganville, Ga., and moved to Navarro county in 1891. He moved to Rule in 1901 where he made his home until his death.

He is survived by his wife and seven children, Mrs. R. J. Cowoll, Pursley; Mrs. Nora Watkins, Midding; Mrs. Bidie Black, Peacock; Mrs. Etta Buck, Cleburne; C. Bett, Stanford; Jesse Bett, Silver City; Cody Bett, Rule and one sister, Mrs. Georgia Williams; four step-children, Mrs. Will Johnson, Haskell; Mrs. Virgil Hunt, Rule; Mrs. Lake Hutto, Spur and Oscar Jones, Abilene; forty-five grandchildren; two brothers-in-law, R. L. Perry, Corsicana and Walter Perry, Oklahoma.

He was a member of the Methodist church. —Contributed.

HEARING OPENED ON APPLICATION TO BUILD SHORT LINE

ABILENE, Jan. 27.—(AP)—Hearing on application of the Abilene and Eastern Railroad Company to construct a 45-mile line from Abilene to Cross Plains in Callahan county opened today before Examiner T. F. Sullivan of the interstate commerce commission.

Interventions in behalf of the project were submitted by the M. K. & T. railroad and by the chambers of commerce of Abilene, Cross Plains, Waco and Houston. Opposing it were the Texas & Pacific and Abilene & Southern railroads, and the Cisco chamber of commerce.

Frank Kell, Wichita Falls, president of the Abilene & Eastern and owner of 50 per cent of its stock, was the first witness and occupied the stand all morning. He testified that he considered the project "feasible and quite worth while in every respect," basing his opinion on topographical surveys and personal inspection and knowledge of the territory to be served.

He pictured the territory as 70 per cent plow land, not now having direct rail service, all of it a potential oil field, and he declared "the psychological effect of a new railroad will result in a large immigration movement into it."

A Benefit to Abilene.

He said he believed that bringing the line to Abilene would contribute greatly to the city's commercial and industrial importance, accounting for a sufficient influx of new population to produce new tonnage of an amunt that would bring distinct benefit to existing carriers, including the Texas & Pacific. The same thing, he said, has happened in other virgin fields, in Oklahoma and the Texas Panhandle, into whch he had constructed short lines.

Kell testified that owners of the Abilene & Eastern effecting a connection with the M. K. & T. at Cross Plains expect to operate in conjunction with that system, although no such arrangement has been made with the Katy lines. He said he believed the Katy connection to Waco and on to Gulf ports would enable West Texas shippers to route their goods in a way to avoid the congested terminal at Fort Worth.

He estimated the line's income account on operating revenue at $160,900 and its expense at $94,920. He said the line would be operating within six months after beginning construction.

At one point he said, "I believe it in the interest of public good from every viewpoint to have this line built, and believe it would be a miscarriage of justice if the application were denied." T. D. Gresham of Dallas, counsel for the T. & P., objected to this statement, but it was allowed to stand.

Gresham questioned Kell regarding a suit brought by Abilene interests in 1910 against the late Morgan Jones to compel him to build a line to Cross Plains. A deposition of Kell's testimony given then was offered in this testimony, and, according to Gresham, Kell said it would be a "disastrous investment" to build such a line.

Kell "did not recall" the testimony, but identified his signature. He added "the territory has since then had a great growth. Mr. Jones might not have been able to make the line pay, but I could have." The discussion grew warm as Kell insisted Gresham was challenging his integrity. At this point Examiner Sullivan commented: "Of course we know, Mr. Kell, that a man of your diverse interests cannot be expected to remember events of 20 years ago."

FURTHER CUT IN OIL PRODUCTION IS PROVIDED FOR

OKLAHOMA CITY, Jan. 27.—(AP)—The Oklahoma corporation commission after a brief hearing today granted the application of major oil companies for a further curtailment of oil production in flush pools of the state.

The Oklahoma City field was ordered to hold production to 25 percent of its potential output until March 31 with a 33 1-3 percent margin allowed for fluctuation of demand.

Curtailment in the East Earlsboro field was set at 66 3-4 percent until February 28, with a 25 percent margin for fluctuation. After February 28, the field will be permited to produce 50 percent of its potential production.

A 30 percent curtailment until March 31 was ordered for the Logan county, Greater Seminole, Allen Dame, Sasakwa, and Pearson-St. Louis-Asher fields.

The Konawa field was ordered to curtail 75 per cent until April 1.

Oil company representatives asserted the market demand until March 31 was estimated at 600,000 barrels daily, that the potential production anow was 900,000 barrels and that the estimated potential production for February and March was 1,000,000 barrels.

KERENS MAN DIED HERE MONDAY; WILL BE BURIED TUESDAY

Charles Leon McCleary, aged 38, of Kerens, died at the Navarro Clinic about 2 o'clock Monday morning after an illness of several days. Funeral services were held at the Corley-McMahon Funeral home Monday afternoon at 4:30 o'clock with interment to be made in the Bazette cemetery Tuesday afternoon at 3 o'clock.

The deceased made his home in Corsicana for a number of years: he is survived by his wife, four children, J. B., Clifton, Robert and Charles; his father, J. D. McCleary, of Corsicana; a brother, A. D. McCleary of Kerens; a sister, Mrs. Winnie Paschal of Corsicana; two half-sisters, Misses Elizabeth and Margaret McCleary of Powell; two half-brothers, Bill and Jack McCleary of Powell; two uncles, Jim and John McCleary of Corsicana, and one aunt, Mrs. Ona B. Sanders of Dawson.

Rev. Tom Lenox, pastor of the First Christian church, officiated at the services Monday afternoon.

Corley-McMahon Funeral Home directed the funeral.

New York Cotton Steady.

NEW YORK, Jan. 27.—(AP)—Cotton opened steady at a decline of 1 point to an advance of 1 point, but soon eased under a renewal of March liquidation and some selling of later months promoted by relatively easy cables.

May sold off to 17.41 and October to 17.60, making net declines of 7 to 8 points, but there was trade buying as well as considerable covering, and prices showed rallies of 2 or 3 points from the lowest by the end of the first half hour.

Offerings increased during the middle of the morning, and prices wo ed off to 17.88 for May and 17.60 for October, or about 8 to 10 points net lower. Better demand developed, and the market showed a somewhat steadier tone late in the morning, but trading was quieter and prices within a point or two of the lowest at midday.

New Orleans Cotton Steady.

NEW ORLEANS, Jan. 27.—(AP)—Cotton opened steady in spite of considerably lower cables. First trades showed no change to one point gain. After the start, lower cables and fear of an increase to acreage caused th emarket to ease off. March traded to 16.97, May to 17.24 and July to 17.44, or 6 to 9 points down from Saturday's close. Near the end of the first hour the market became steadier in moderate support and trade buying, recovering 2 to 3 points.

Later the market continued to ease off on selling due to London advices that the Lancashire mill workers had decided on a strike by secret ballot showing a large majority for the strike but stating that the workers council for the time being had deferred action. March traded down to 16.95, May to 17.21 and July to 17.42, or 6 to 12 points under the highs. At noon the market was somewhat steadier and had rallied a few points from the lows.

Indictment Against Sheriff Returned

GALVESTON, Jan. 27.—(AP)—Indictments charging Sheriff H. Wyatt Collins of Fort Bend county, several deputy sheriffs and about 65 other residents of Richmond with conspiracy to violate the prohibition act were returned by a federal grand jury today. Those indicted were arrested in a prohibition raid Jan. 18.

RICE

RICE, Jan. 24.—(Spl.)—Mr. and Mrs. G. R. Long visited in Dallas Sunday.

Mrs. J. P. South, who has been quite ill for the past week, is slowly improving.

Mr. and Mrs. Frank Mathews have moved to Corsicana.

Miss Bertiola Hobbs, who is teaching school at Sands Chapel, was here for the week end.

Persons Hodge of Chatfield was in town for a few hours Saturday.

Mrs. Jess Pollan has returned home from Groesbeck, where she has been visiting her sister, Mrs. Clarence Broodnox.

Mrs. A. R. Jackson and Mrs. Alton Bradley visited in Corsicana Wednesday.

Miss Merle Weir spent the week end in Ennis with homefolks.

Mrs. G. R. Long visited in Corsicana Monday.

J. M. Bartlett is in Dallas on business this week.

Reports from J. S. Dyer at Glen Rose, where he went several days ago for treatment, says he is slowly improving and will be able to return home in a few days.

Mr. and Mrs. Mynatte and Mrs. Luther Shiflett and daughter, Ruth, all of Pueblo, Colo., visited Mr. and Mrs. A. R. Jackson Monday.

Mrs. W. P. Edwards visited in Dallas Wednesday.

Talmadge Galemore made a business trip to Dallas Tuesday.

Mrs. Bufa Pritchet, who is teaching at Chatfield, spent the week end here.

Miss Lola Miles of Emhouse spent the week end here with her parents, Mr. and Mrs. M. S. Miles.

Dave Atchley made a business trip to Corsicana Monday.

DAWSON

DAWSON, Jan. 24.—(Spl).—J. O. Harrison and Jas. Davis were Fort Worth visitors the early part of the week.

Mrs. Earl Sawyer and little daughter of Waco visited relatives here the early part of the week.

Mr. and Mrs. J. S. Shaw of Italy visited relatives here last week.

Mrs. Clara Patterson left Sunday for San Angelo after a two weeks' visit here with relatives and friends.

M. M. Whitehurst and Mrs. J. P. Broughton of Hearne came in Thursday.

Mr. and Mrs. Whitehurst, who spent some ten days here, returned to their home Friday, while Mrs. Broughton remained for a longer visit.

Mrs. Marion Edwards left Friday for a short stay in Louisville, Ky., after a ten days' visit here with relatives and friends. Mrs. Edwards will go from there to New York, from where she will sail for Brazil on Feb. 14, to resume her work as a missionary.

Mr. and Mrs. C. C. Dawson of Fort Worth came in Thursday for a visit with relatives.

Mr. and Mrs. W. O. Griffin of Kerens visited Mrs. Griffin's parents, Mr. and Mrs. R. H. Majors, here last week.

Mrs. Ewing Wright of Corsicana has been visiting her parents, Mr. and Mrs. M. M. Dickson, here this week.

Mrs. Harry Jones of Houston spent Wednesday and Thursday here with Mr. and Mrs. J. F. Smith.

J. B. Sawyer spent Wednesday in Waco.

Horace Bankston of Shreveport, La., was here Wednesday and Thursday on account of the death of his grandfather, J. T. Mitchell.

Grain and Provisions

CHICAGO, Jan. 27.—(AP)—With Liverpool much lower than expected, and the amount of wheat on ocean passage showing a decided increase, wheat here headed down grade today.

Opening 3-4 to 1 1-2 off, Chicago wheat later underwent an additional downturn. Corn, oats and provisions were also weaker, with corn starting 1-4 to 1-2 off, and subsequently sagging still more. Both corn and oats made new low price records for the season.

Wheat closed nervous, 1 to 1 1-8c to 3-8c a bushel lower than Saturday's finish. Corn closed 3-8 to 3-4c decline to a rise of 2c.

	High	Low	Close

Fort Worth Cash Grain.

FORT WORTH, Jan. 27.—(AP)—Wheat was off a cent today. Corn lost a cent but other grains held about unchanged from Saturday. Demand for wheat and corn was fair but the rest were slow.

Exporters bid 1.26 1-2 to 1.27 for No. 1 ordinary export wheat delivered Texas gulf ports.

Other bids and offers, basis carloads delivered Texas common points freight paid:

WHEAT: No. 1 ordinary hard milling 1.28 to 1.29; No. 1 hard 13 per cent protein 1.20 to 1.30; 14 per cent 1.33 to 1.34.

CORN: No. 2 mixed 97@98; No. 2 white or yellow 99 1-2 to 1.00 1-2.

Kansas City Cash Grain.

KANSAS CITY, Jan. 27.—(AP)—WHEAT: No. 2 dark hard, nominally, 1.15 1-2@1.25; No. 2 hard 1.14 1-2@1.15 1-2; No. 2 red, nominally 1.23@1.26; May 1.18.5-8; July 1.20.

CORN: No. 2 white, nominally, 80@81; No. 2 yellow 81@82; No. 2 mixed 78; May 87 1-4; July 90.

OATS: No. 2 white, nominally, 45@46.

Butter Firm; Eggs Easy.

CHICAGO, Jan. 72. (AP)—Butter firm; creamery extras 36 1-2; standards 36 1-2; extra firsts 35 1-2 to 36; firsts 33 1-2 to 34 1-2; seconds 31 to 32.

Eggs easy; extra firsts 36 1-2; graded firsts 35 to 35 1-2; ordinary firsts 32 to 34.

Poultry Firm.

CHICAGO, Jan. 27.—(AP)—Poultry firm; fowls 25; springs 24; No. 2, 17; bzroilers 30 to 32; rosters 18; turkeys 25; ducks 20; small 16; geese 18.

Chicago Cash Grain.

CHICAGO, Jan. 27.—(AP)—WHEAT: No. 2 mixed 1.21.

CORN: No. 2 mixed 79 to 1-4; No. 3 white 84 1-2.

OATS: No. 2 white 45 1-2 to 46.

Spot Coffee Quiet.

NEW ORLEANS, Jan. 27.—(AP)—Spot coffee quiet. Santos No. 4s 15 1-4 to 15 1-2. Rio No. 7s, 11.

Rice Demand Good.

NEW ORLEANS, Jan. 27.—(AP)—Rough rice, good demand. Sales none. Receipts none. Clean rice quiet. Sales, Blue Rose, 3,848. Receipts 9,900.

Livestock

Fort Worth Livestock.

FORT WORTH, Jan. 27.—(AP)—(U. S. D. A.)—HOGS: 2,000; rail hogs 15c lower; truck hogs steady to 15c lower; rail top 9.75 for medium to good lights; truck top 10.25; bulk better truck hogs 9.00 to 10.15.

CATTLE AND CALVES: 5,500; Slow; fed steers top 11.75; others 10.25 and less; yearlings 11.00@11.50; cows up to 8.25; top bulls 8.50; heavy calves 10.50@10.75; strong weight vealers 12.00.

SHEEP: 3,200; lambs 75c to $1 lower; yearlings and wethers 25-50c lower; wooled lambs 11.85; shorn yearlings 10.00; 2-year-old wethers 9.00; aged wethers 8.00.

East St. Louis Livestick.

EAST ST. LOUIS, Jan. 27.—(AP)—(U. S. D. A.)—HOGS: 23,000; 160-220 pounds 10.15@10.25; 230-260 pounds 9.90@10.10; 270-340 pounds 9.60@9.85.

CATTLE: 3,500; Calves: 1,200; slow; steers 11.50@12.25; top bulls 8.75.

SHEEP: 2,500; lambs steady; few 12.75.

WOMAN MEMBER OF TEXAS REPUBLICAN BODY IN PROTEST

SAN ANTONIO, Jan. 27.—(AP)—Failure of President Hoover to forward to the senate the name of a candidate for appointment as customs collector in the Laredo district drew the fire of Mrs. Florence Griswold of San Antonio, member of the national Republican executive committee today.

The majority of the Texas Republican executive committee, Mrs. Griswold said, have indorsed W. K. McDowell of Del Rio for the post, now held by Roy Campbell.

Announcement was made in Washington Saturday that the president would not send the names of Campbell and John D. Hartman, United States district attorney here, to the senate for confirmation. Senators McKellar and Brookhart already had filed protests against their reappointment. It was planned, Washington dispatches said, to let Campbell and Hartman hold over, as submission of their names to the senate would bring on a patronage fight.

In her telegram to President Hoover today, Mrs. Griswold said: "If newspaper dispatches from Washington are correct concerning the intention of retaining Roy Campbell as collector of customs *without submitting his name to the* senate, I wish to go on record as stating that in this instance National Committeeman Creager is not following the wishes of 26 of the 31 members of the Republican state executive committee who are in favor of appointing another candidate as clearly shown by the records on file with the secretary of the treasury."

Mrs. Griswold asserted the 26 members of the state committee indorsed McDowell at Washington last March.

AGED CORSICANA WOMAN BURIED AT KEMP ON SUNDAY

Funeral services for Mrs. Mollie Haney, aged 77 years, who died at the home of her daughter, Mrs. Wilbur Yeilding, 115 Rob avenue, Saturday morning at 11 o'clock, were held in Kemp, Texas, with interment in the Pyle Prairie cemetrey. The body was forwarded to Kemp Sunday by the Corley-McMahon Funeral Home who had charge of the arrangements.

Surviving are two hons, Hugh Haney, Corsicana, and E. B. Haney, Kemp; four daughters, Mrs. Yeilding, Mrs. Leona Owen, Oklahoma City; Mrs. Charles Carr, Corsicana; Mrs. Sam Jernigan, Corsicana; two sisters, Mrs. W. W. Bradley, Waco; and Mrs. Richard Adkin, San Antonio.

MEMBERS OF TEXAS LEGISLATURE VIEW HUNTSVILLE WALLS

HUNTSVILLE, Jan. 25.—(AP)—The Texas ligislature saw the state's central penitentiary plant "at work" today. Of the 1,084 men behind the walls, less than half were employed. The others were whiling away the time in idleness.

Among plans proposed for modernizing and concentrating the penitentiary system—for which the special session was specifically convened—the rehabilitation of the present walls and equipment for industrial activities have been mentioned prominently.

Huntsville has been headquarters of the system for 80 years. Governor Moody was with the more than one hundred legislators who went through the walls and gave minute inspection to the inmates, their living conditions and facilities for keeping them at work.

He was reluctant to make the trip through, because, he felt that there would be scores of personal appeals for clemency, but the men did not bother him, being evidently taken by surprise and somewhat fascinated by the big group of visitors.

"Death Row," where three men await their turn in the electric chair, was one of the first places visited. The condemned men are Ofelio Herrerra, convicted of the murder of the sheriff of Mason county; E. V. Allen, participant in an Eastland county bank robbery and now awaiting a sanity hearing, and Percy Howard of El Paso county, charged with the murder of N. V. Nixon, service car driver.

Herrerra was in jovial spirits and talked freely. His case is before the court of criminal appeals. Allen was asleep in his bunk and refused to remove the cover from his face. Howard has been in prison seven years awaiting the result of appeals. His execution is set for February 10, but has been extended several times pending trial of an alleged accomplice to the crime.

Inmates of the prison sleep two to the cell, about nine by 12 feet, the cell blocks being in tiers three high. There is not room for all the men in the cells and hundreds sleep in the corridors, and until recently, before transferring some to farms, it was necessary to make pallets on the floors. Sanitary facilities are inadequate and the ventilation very bad.

Hospital facilities are inadequate, except that the operation room could be made modern with addition of suitable X-ray equipment, according to Dr. C. W. Butler, in charge. There are no adjustable hospital beds. Sanitary conditions could be improved by installing needed sewage connections and providing more bathing facilities, he said.

The shoe shop was working at capacity of 36 pairs daily. It would require equipment capable of turning out 150 pairs daily to supply the needs.

The electric chair was harnessed for a demonstration and the legislators heard the motors sing and saw the lights flicker as they do during an execution.

When the assistant warden in charge of pulling the lever explained that before the current is turned on every man is given a chance to talk, Senator Pink L. Parrish of Lubbock wanted to know what he would do in event a man "just kept on talking."

"You might get hold of one of these Texas senators some day, and he would filibuster you out of it," the senator commented.

HUNTSVILLE, Jan. 25.—(AP)—Members of the Texas legislature inspected today the only self-sustaining part of the penitentiary system. Women prisoners on Goree farm produce the clothes, towels and other articles for use of the 5,000 prisoners of the system.

The "tailor shop" presented the only real humming, functioning activity the legislators, making a three-day inspection of the widely scattered prison properties, had seen on the trip. There were many flying hands and needles, sewing trousers, shirts, hats and summer underwear, and they put together the garments of cotton flannel and cotton stocking. Thousands of yards of the material, bought on the open market by the board of control, are sewed up annually, the capacity of the plant depending on the demand.

There were an even one hundred prisoners on the farm, which occupies a pretty rolling site four miles from Huntsville on a concrete highway. Of the inmates, 34 were negroes, three were Mexicans, and the others were white.

One of the most pathetic figures was a gray haired wrinkled old woman with a motherly face. She had been in prison 16 years after conviction for the murder of her step children.

The legislators were hospitably welcomed on their arrival at Huntsville by a delegation of citizens.

Representative V. Giles of Austin said today that citizens of Travis county were against the proposal to concentrate the prison within 20 miles of Austin.

Legislators Visit Three Farms Friday

HUNTSVILLE, Jan. 25.—(AP)—After having received an eyeful at the three state farms near Houston, the legislature arrived here today to see the 80-year-old walls at Huntsville, where more than 1,100 men are confined with facilities to care for little more than half that number.

In addition to the inspection within the walls, the legislators—out to get first hand information about the claimed inadequacy of the far-flung penitentiary system—will go to the Ferguson farm in Madison county, the Eastham farm in Houston county, and the Wynne and Goree farms in Walker county.

At the Wynne farm the lawmakers will come in contact with the prisoners who are suffering with tuberculosis, and at the Goree farm they will see the women who are doing servitude for infractions of the law. The Wynne farm has been the scene of the greatest dissension among the penal charges of the state and here have been planned and executed some of the most sensational of the escapes of record. In this connection, it is interesting to note that more than 350 prisoners escaped from the penitentiary properties last year.

It is at Huntsville that one of the minority groups of the prison centralization commission would place the central, modernized and industrialized plant. This plan is incorporated in the house bill by Representative Harry N. Graves of Georgetown and the senate bill by Senator Nat Patton of Crockett.

They believe that it would be the best interests of the state to rehabilitate the Huntsville walls, enlarge and renew the buildings and put into effect on this site the reformations of policy which are being generally advocated by legislators and which prompted Gov. Moody to call the fourth extraordinary session, now confronted by five separate and distinct plans of solving the penitentiary problem before it.

The majority report of the commission recommends concentration of the central activities on a 1,000 acre site within 20 miles of Austin and Gov. Moody is supporting this proposal.

In its inspection yesterday of the Blue Ridge, Imperial and Harlem farms, the legislators who had never before observed conditions there were outspoken in thir desire to bring about a complete reformation with the matter of a central site entirely subordinated to the urgency of correcting what some of them have described as uncivilized living conditions.

At the Blue Ridge farm they found as many as 174 Mexican prisoners living in one small dormitory, with the bunks three high and so close together that it seemed it would be difficult for a sleeper to turn over without interfering with the slumber of his neighbor.

Conditions on the Imperial and Harlem farms were a slight improvement, but all three presented buildings housing 1200 men that are of fram makeshift construction with unbelievable fire hazards.

Senator Thomas B. Love of Dallas, after looking at the housing facilities on the farms, said he believed the Texas penitentiary system was more efficient 50 years ago than now.

"I shudder when I think of the holocaust that might be brought by fire any moment," he said.

On Sunday the legislators plan to make headquarters in Houston while they go for a tour of the Darrington, Clemens, Ramsey and Retrieve farms in Brazoria county.

Bills Introduced For Three Bridges

WASHINGTON, Jan. 27.—(AP)—Bills to authorize Texas and Oklahoma to build and operate three highway bridges across the Red river between Denison, Texas and Durant, Okla.; Ringgold, Texas, and Terral, Okla., and Gainesville, Texas, and Mariett, Okla. were introduced today by Senator Thomas, Oklahoma.

ROADS IN WORST CONDITION THAN FOR MANY YEARS

Worst road conditions in many years were reported from all parts of Navarro county Monday as a result of the rain Sunday and the warmer weather that has permitted the ground to thaw slowly and turn into quagmires.

Some traffic was reported attempting the roads and some of them finally made it through to their destination after slipping and sliding about and being pulled by teams stationed along the way. Eighteen teams were reported stationed along at advantageous points on the road to Rice and to Emhouse. Teams were also being used on the road to Mildred and other oil field points.

One traveler reported that it took him ten hours to come from Ennis to Corsicana Sunday afternoon and evening.

Roads in all directions out of Corsicana were extremely heavy and practically impassable, and many of the unpaved streets in the city were in the same condition. Numerous citizens had difficulties in making their way along unpaved driveways from their garages to the streets.

INCREASE SHOWN IN ENROLLMENT CITY'S SCHOOLS MONDAY

With an approximate total enrollment of 3259 students, the mid term classes registered in the Corsicana public school Monday, it was announced by H. D. Fillers, superintendent. This term's enrollment showed an increase of 319 above the fall term beginning September 1929, the superintendent declared.

The increased enrollment is partly credited to the number of six year old children who were admitted this term that were kept out of school at the beginning of the 1929-30 school year.

W. H. Norwood, high school principal, estimated the high school enrollment to be approximately 750 students. In view of the fact that the low freshman class that usually goes to the high school from junior high school, will be kept at the junior high building, this term, the high school enrollment is not expected to be increased a noticeable extent. Registrations will not be completed in the high school until Tuesday afternoon.

Enrollment in the grade schools, quoted the following figures at 1 o'clock Monday: William B. Travis, 497; Robert E. Lee, 288; Crockett, 98; and the Sam Houston school 564. The Junior high school with a total of 417 enrolled this term as compared with 260 the last fall term,

SECOND MID-TERM GRADUATION HELD FRIDAY EVENING

DR. J. W. BERGIN DELIVERS CLASS ADDRESS TO TWENTY-TWO GRADUATES

Dr. J. W. Bergin, pastor of the First Methodist church, delivered the class address at the second annual mid-term graduation exercises in the high school auditorium Friday night, when 22 students received their diplomas. W. H. Norwood, high school principal, presented Palmer Chrisman and Miss Emy Neill Stroud, honor pupils, with scholarships, and C. A. Middleton, secretary of the board of education, awarded the diplomas.

After the graduates, attired in caps and gowns, took their places on the stage, the Rev. Thomas Lenox, pastor of the First Christian church, gave the invocation. Mr. Norwood said it had been half a school-year since there had been a similar gathering in the high school auditorium. He stated the present class was not as large as the last, but it did not lack the quality of the one before.

Twenty members of the girls' glee club, under the direction of Miss Joe Jarrell, public school musil supervisor, took their places on the stage and sang "The Days of Long Ago," by J. Brandl, and "Indian Dawn" by Roos-Zabeenik.

Salutatorian in Piano Number

Miss Emy Neill Stroud, salutatorian, with an average of 91.88, one of Corsicana's most talented and popular pianists, played as the salutatory, Polichinelle (The Clowns), by Rachmaninoff. Miss Stroud drew deserved applause from the assembly, by virtue of her polished technique in rendering the difficult composition.

H. D. Fillers, Corsicana public school superintendent, stated W. P. McCammon, president of the board of education was unable to be present, and C. A. Middleton, secretary of the board, would award the diplomas.

The superintendent declared the local high school has made many unique records in scholastic and musical circles within the last year. He pointed to the fact that Thurman Evans, former high school graduate, was chosen to represent Texas in the recent Edison scholarship contest, and that Miss Louise Barth, now a senior in high school, by virtue of her unparalleled ability as a violinist had been selected to represent the state of Texas on the National Orchestra, which will broadcast a program from Atlantic City, on Feb. 27. Mr. Fillers said it is a pleasure to know that the various phases of learning taught in Corsicana are contributing their share of renown and culture to local students.

Introduces Dr. Bergin.

Introducing the speaker of the evening, Mr. Fillers said that Dr. Bergin has been in the city only a short time, but has already claimed a place in the hearts of local citizens.

Beginning his address, Dr. Bergin stated his subject would be, "Poets are Born, Not Made." He explained that a school building is merely a human laboratory, while the corps of efficient teachers are scientists, experimenting with and analyzing the students to discover their possible dormant talents.

"We are living in an age of self-discovery," the speaker declared, "and like a bulb which contains the life germ, we do not blossom out into young manhood and young womanhood until we are placed in our natural surroundings. People, like the bulb," he continued, "will produce the kind of man or woman, according to the talents that is theirs. The pastor declared it would have been impossible for George Washington to be a Babe Ruth, or Lindbergh to be a Jack Dempsey, because, it was not Washington's talent to be a ball player, or Lindbergh's to be a prize fighter.

The Dr. Bergin said we are living in an age of specialized effort, and urged the graduates not to be a "jack-at-all-trades," but to discover their life's work, and labor with that alone.

"Play the game of life fair and square, and pay the price," he declared. After quoting a verse of Gray's "Elegy, Written in a Country Churchyard," the speaker explained that the people in the community referred to in the "Elegy," failed to gain worldwide recognition simply because they were not willing to pay the price of work.

Must Have Genius

The speaker quoted Henry Ford as saying, "Genius is 99 per cent hard work," and explained that to be a success in life, one must have genius, which may be furnished by encouragement. In this connection, the Rev. Mr. Bergin declared there are some jobs that one man alone cannot accomplish, but must have the encouragement of others. He referred to the recent death of Mrs. William Jennings Bryan, and said the late William Jennings Bryan in times past gave his wife credit for his success, which she inspired him to acquire.

The speaker quoted Dr. Marvin M. Graves, of Galveston as directing a man's success to the constant practice of self-reverence; self-knowledge, and self-control. The speaker of the evening concluded: "If you graduates will practice these three virtues, you will be a success, and shed luster on the home that reared you, the school that gave you your diploma, and the country in which you have lived."

Valedictorian Plays Selection

Palmer Chrisman, valedictorian, with a four-years' average of 93.82, played as the valedictory, a piano solo, "Hungarian Rhapsody No. 2," by Liszt. His artistic execution of the classical selection met with well merited applause.

Before awarding the honors, Mr. Norwood explained that the fact that both honor pupils had completed their musical and academic training at the same time was unusual. He said it is usually the custom to present students with their music diplomas at a later date, but in this case they would be given with the high school diplomas. The principal presented Miss Emy Neill Stroud with a scholarship, as merited by her winning of second honors, and said that she will attend S. M. U. in Dallas. He next awarded Palmer Chrisman a scholarship, entitling him to four years' study in the college or university of his chocie. The valedictorian will attend the State university, Austin.

Twenty-two Graduates

Acting in place of W. P. McCammon, C. A. Middleton awarded diplomas to the 22 graduates in the following order:

Aliene Chambliss, Dee Edward Newland, Jr., Emy Neill Stroud, William Palmer Chrisman, Jr., Estelle McClung, McClellan Wassell, Juanita Stark, Glenn L. Wells, Llora Huffman, Frank Borsellino, Mary Mel Lockhart, Haskell McClintock, Josephine Brown, Clovis M. Stover, Myrtle Cummins, William W. Love, Hallie Moore, Vernon L. Nokes, Ferne Johnson, John Leslie Yates, Thomas L. Smith, and James S. Greenlee.

Mr. Middleton next presented the two honor graduates with their music diplomas. The benediction was given by Rev. Thomas Lenox, and was followed by recessional, by the high school orchestra, directed by Miss Joe Jarrell.

GRIM TALE OF FRATRACIDE IS CONTAINED IN CONFESSION CLEARING UP IDAHO MURDER

ST. ANTHONY, Ida., Jan. 25.—(AP)—A grim tale of fratricide because the victim intruded on a rendezvous of his brother and his mistress, or subsequent mutilation of the body to establish false clues and of hiding the body in the waters of a canal was contained today in a confession signed by Glen Jenkins, 20, nephew of the murderer and the victim.

The body of David R. Jenkins, who disappeared on Nov. 18, was found in a canal on Dec. 18, bearing five bullet wounds and a crushed skull. During the investigation, John Jenkins, a brother, shot and killed himself at his home here.

The murderer, according to young Jenkins' confession, was John Jenkins. He sad that David Jenkins went to the home of his brother on the evening of November 18 and found Miss Jennie Bishop, 54, and his brother in a small tent.

The youth said John Jenkins killed his brother with a club. He added that one of the couple fired five bullets into the body and both concealed it. They then took the murdered man's car to his home and returned to the John Jenkins place. Young Jenkins said that soon afterward his uncle came to him and requested that he assist him with some work. When they arrived at the Jenkins farm he revealed the face of the dead man and threatened young Jenkins with death unless he remained silent.

The youth said Miss Bishop helped them load the body into his small roadster and they went to the canal, where Miss Bishop threw the body into the water.

Newell Parker of Rexberg, Idaho, was arrested because he said he knew who the murderer was, and it was during his preliminary hearing that John Jenkins shot himself.

Miss Bishop was arrested on Jan. 18, and accused of being an accessory after the fact.

BIG FOUNDRY BURNED

INDIANAPOLIS, Ind., Jan. 25.—(AP)—The plant of the American Foundry company, on the west side here, was destroyed by fire today. Loss was estimated at $750,000. The fire is believed to have started in a furnace.

Jester Woman Died Friday Afternoon; Burial Saturday

Mrs Margaret Ada Dyer, aged 56, died at the family home at Jester about 5 o'clock Friday afternoon after an illness of about seven weeks. Funeral services were held from th home Saturday afternoon at 1:30 with interment in Hamilton cemetery.

She is survived by a husband, three sons and one daughter, and other relatives.

Corley-McMahon Funeral Home directed the funeral.

YOUTH INSTANTLY KILLED BY HIGH VOLTAGE SHOCK

Willie Crews, aged 21, employe of Fred M. Allison Motors, was electrocuted shortly after 5 o'clock Friday afternoon while aiding in the removal of a guy wire on a spotlight.

Funeral services will be held at Blooming Grove Sunday afternoon at 3 o'clock with interment in the Blooming Grove cemetery. The funeral cortege will leave Corsicana at 1 o'clock. He is survived by his mother, Mrs. Harry Allison, two sisters, and one brother.

Pallbearers will be J. B. Beard, Clyde McGehee, Marvin Morgan, Willie Lee Burge, James Beard and Elliott Barnes.

While a group of men were engaged in removing the guy wire, the line apparently whipped against an 11,000 volt feeder line, sending the full charge through crews' body. He was rushed to the Corsicana Hospital and Clinic but efforts to revive him were futile and the body was then removed to the Sutherland Undertaking Parlors.

The accident opened a circuit breaker at the Corsicana substation and several blocks of homes and business houses were deprived of power and lights for a short time. Later the power was cut off again while another attempt was made to remove the guy wire, but the darkness made the task too hazardous.

The guy wire was finally removed Saturday afternoon.

APPROVE CHANNEL INTO BROWNSVILLE VIA RIO GRANDE

WASHINGTON, Jan. 24.—(AP)—Representative Garner, democrat, Texas, announced today Major General Brown, chief of army engineers, approved the projected development of the Rio Grande to provide a channel from its mouth to Brownsbille, Texas at a cost of $4,783,000.

Garner said the report, made to the senate interstate commerce commission, recommended maintenance of both projects by the government at a cost of $150,000 annually.

The democratic leader added the appropriation was expected to be included in the deficiency bill for rivers and harbors and in the event of favorable action by congress, the funds would be available shortly after July 1.

SPELLS OF BACKACHE

"I HAVE used Cardui at intervals for sixteen years, when I suffered from weakness, and it always helped me," says Mrs. J. W. Jinright, R. F. D. 2, Troy, Ala.

"Mostly I was afflicted with bad spells of backache. At times I felt as if my back would break. I would drag one foot after the other, in a helpless sort of a way, and once I got down in bed. My husband urged me to take Cardui, and I soon found what a fine medicine it really was.

"When my second child was little, I was in very bad health. I did not pick up as I should have. I was weak and sickly. I do not believe that I would have come through, but for Cardui." EX-146

Announcement

I take this means of announcing to the voters of Navarro county that I will be a candidate in the July primaries for flotorial representative in the Legislature for Hill and Navarro counties.

I was a member of the 36th Legislature from Bell county. I was author of the first bill seeking to place the coast of building and maintaining our highways on the users of these highways, by means of increasing the gasoline tax, and lowering automobile license fees.

I also sought to get through legislation that would exempt the owners of homesteads from taxes on notes they owed on these homes and compelling the holders of the notes to pay taxes on them.

I also introduced bills seeking to merge some of our many State boards and commissions, and for having all of them, and other State institutions audited annually.

I have always contended that we need more business men in the legislature.

I was agent for more than twenty years for railroad and express companies, and operated creameries for fourteen years, being one of the pioneers to engage in that business. I was president of the Texas Creameries Association two years, and was a director in the Texas Ice Cream Makers Association several years.

During most of all this time I have been engaged in the wholesale produce business.

A little over four years ago I came to Hillsboro to take the management of a branch produce house for Mr. H. B. Walker of Corsicana, being a junior partner. We sold out about a year ago, since which time I have been engaged in the same business for myself.

IMPROVEMENT FOR BRAZOS ISLAND TO COST $5,000,000

WASHINGTON, Jan. 25.—(AP)—The army board of engineers for rivers and harbors today recommended development of the Brazos Island harbor, Texas, project at a cost of approximately $5,000,000.

In a report to congress the board recommended a channel 25 feet deep and 300 feet wide through Brazos Santiago Pass, with jetty protection at an estimated cost of $2,358,000.

It proposed a channel 25 feet deep and 100 feet wide from the pass to a point on the easterly side of Long Island at a cost of $200,000; a 25 and 100 foot channel from the end of Brazos Santiago Pass—Long Island channel to and including a turning basin 500 feet square at Point Isabel at an estimated cost of $250,000; a 25 and 100 foot channel from the end of Brazos Santiago Pass—Long Island channel to and including a turning basin 1,000 feet square in the vicinity of Brownsville, at an estimated cost of $1,950,000.

The recommendation was conditional upon certain local contributions.

Local interests must donate the north end of Brazos Island, the south end of Padre Island and make available suitable terminal facilities. A contribution of $2,175,000 also would be required before starting workand right-of-way and spoil disposal areas would have to be furnished free of cost.

A channel to Point Isabel would not be undertaken until $450,000 had been contributed together with rights-of-way.

The board estimated that approximately $150,000 would be required annually for maintenance. The recommendation held a 25 foot channel necessary to attract commodity movements of the class expected by local interests, the estimated tonnage of which is 775,000 tons.

Mother and Five Children Burned Death In Home

ATLANTA, Mich., Jan. 25.—(AP)—A mother and her five children were burned to death last night in fire which destroyed their home here. The dead are Mrs. J. B. Kent, and Lucille, 7, William, 8, Thomas, 10, Agnes, 13, and Oneeta 14. The fire is believed to have started from an overheated stove.

Two Miners Are Killed Result Dynamite Blast

LANSFORD, Pa., Jan. 25.—(AP)—Two men engaged in rock operations were killed in the No. 6 colliery of the Lehigh Coal and Navigation company today, and two were seriously injured.

The dead are:
JOHN SCORIONI, 30.
ALESIA OLIGIERA, 37.
The injured:
Pietre Bertelino.
Luis Ferrit.

The men were drilling into rock, and it was believed they struck an unexploded charge of dynamite.

MURDER CHARGES FILED SATURDAY AGAINST WOMAN

CLARENDON, Jan. 25.—(AP)—A charge of murder was filed today against Mrs. F. E. Eates, who surrendered to officers yesterday after the fatal shooting of H. M. Christianson, sign panter, here. The charge was filed following an inquest by a justice of the peace.

Mrs. Bates was in jail today awaiting an examining trial, date for which has not been set. She made no statement.

Christianson, a tenant of Mrs. Bates, was wounded three times and almost instantly killed.

Mrs. Bates had been separted from her husband for several years. Christianson and her husband formerly were business partners.

The Clarendon American Legion Post today was attempting to locate the dead man's relatives through insurance policies and other war records. Funeral arrangements were withheld pending outcome of this attempt.

Christianson had his suitcase in his car when he was called into the house by Mrs. Bates. It was not known whether he planned to leave the city.

Roster Completed of Spanish War Vets

Roster of the Roger Q. Mills camp, Spanish war veterans, was completed Friday evening at a called meeting of the camp in the office of Post-Commander Col, C. A. Davis.

The roster has been forwarded to the national headquarters and the charter for the Corsicana camp is expected in the near future.

Cattle Losses Range Country of Texas Small

FORT WORTH, Jan. 24.—(AP)—Cattle loss in the range country will be comparatively small, according to reports received here.

With the close of the coldest weather over a good portion of the range country in Texas for more than a quarter of a century, rumors have been current that the loss would be unusually heavy, that it would run into several hundred head on some of the large ranches and that on some of the small ranches the loss would be appreciable.

In some sections, cattle went into the winter in thin condition, but even these seem to have pulled through without great loss.

You can feel the rejuvenating effect S.S.S. brings the body by the increase of red-blood cells

A clear, smooth, lovely skin enhances personal attractiveness. Men admire it. Women praise and secretly envy. More happiness and friends may depend upon it.

YOUR popularity may depend upon a clear, smooth, lovely skin. It is the accepted way of telling the degree of health a person possesses. Naturally a skin which bespeaks health attracts.

Skilled physicians recognize the appearance of skin blemishes, lack of appetite, flabby flesh and loss of energy as an indication that the body's power of resistance is low—that there is a deficiency of red-blood-cells.

The way to the skin is through the blood. Strong, healthy blood nourishes the body and promotes smooth, clear skin.

Many thousands have regained their strength and charm by taking S.S.S. It is Nature's own blood tonic for raising the body's power of resistance to infection and disease, improving the appetite, building firm flesh and clearing the skin.

S.S.S. promotes healthy body building. It increases the number of red-blood-cells. It is made from strictly fresh vegetable drugs and has a successful record of over 100 years back of it.

S.S.S. Makes You Feel Like Yourself Again

All good drug stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.
